Egypt Leader Blames Israel

For Talks Lag

QANTARA, Egypt, Nov. 10 (NYT) — President Anwar Sadat

came to this war-ravaged Smai city to pray today and said that it will be Israel's fault if the peace talks in

In one of his toughest statements yet, exactly a year and a day after he launched his peace initiative, the

Egyptian leader said. "I shall not be astonished at all" if the current

Egyptian-Israeli negotiations are

suspended.

Despite a series of reports from Washington that a peace agreement

might be signed soon, Mr. Sadat expressed no such optimism today.

The framework agreements that Mr. Sadat, Israeli Prime Minister Menachem Begin and President Carter signed at the Camp David

summit meeting in August set a target of Dec. 17 for an Egyptian-Is-

raeli treaty and a separate agree-ment to work toward a comprehen-

Asked if he saw any chance of

meeting the Dec. 17 deadline, Mr.

Sadat replied: "After the latest Is-

raeli attitude one can never sav anything. It is difficult, but I don't

want to add anything now until we

see what will develop in the very

Asked if the Washington negoti-tions might be suspended, he said:

Let me tell you this. We are not

after a separate agreement or a par-tial agreement. We are after peace. If this cannot be achieved, it will

not be because of us. It will be be-

Gaza Strip and the West Bank, areas occupied by Israel since the 1967 war. Israel does not want the settlement to include any deadlines for dealing with the Palestinian Mr. Sadat arrived in Qantara to say the prayers that mark the be-ginning of Courban Bairam, the

feast of the slaughtered sheep, which is one of the Islamic religion's holiest days. His black station wagon crossed a pontoon bridge from the west bank to the east bank of the Suez Canal about 30 miles northeast of Ismailia and wound through the rubble of a city which had a population of nearly 50,000 before the 1967 Arab-Israeli war and the 1969-70 war of attrition.

Today it is a shell-pocked town with only about 200 men, all government and army employees. There are no women and children.

Carter's Statement After the prayers, Mr. Sadat

stopped to speak to newsmen. Referring to President Carter's statement yesterday that the point of the Camp David agreements was not just an Egyptian-Israeli agreement but also a resolution of the Palestinian question. Mr. Sadat said: "As far as I know he agrees with my point of view that there should be a link between the [Egyptian-Israeli] agreement and the comprehensive settlement."

Asked whether Egypt would agree to a compromise, the Egyptian leader responded by rephras-ing the question: "Could there be in the fundamental principles a compromise?" Then he grimaced and got in his car.

140 Demonstrations Across Country

Spaniards March to Protest Terrorism

Tens of thousands marched through central Madrid tonight to protest the political violence that has claimed 65 lives in Spain this

The demonstration was one of more than 140 being held across the country tonight, supported by Spain's main political parties, trade unions and citizens' associations.

The thousands who turned out in the capital despite a day of torrential rain marched behind a huge banner reading, "Terrorism No, Democracy Yes," and chanted, Yes to the Constitution, No to Terrorism."

Organisers of the marches, being held in all parts of Spain except the troubled Basque region, said they hoped that more than a million persons would take to the streets to show their opposition to guerrilla riolence. The Basque separatist orla killings.

No Regrets, Smith Says On Anniversary of Split

SALISBURY, Rhodesia, Nov. 10 have imposed trade sanctions (UPI) - Prime Minister Ian Smith, who declared Rhodesia's independence from Britain 13 years ago tomorrow, says he has no regrets about his decision even though he faces an increasingly bloody and apparently unwinnable war.

Mr. Smith said yesterday that he looks for a Camp David-style summit to bring peace to Rhodesia, and he warned Britain that its soldiers risk death by aiding black nationalist guerrillas trying to depose him.

At midnight tonight, Mr. Smith will strike a bell to commemorate his Nov. 11, 1965, unilateral declaration of independence, a decision that set Rhodesia on a path of white minority rule. In the interview, Mr. Smith de-

fended his decision. "With the passage of time, it be-comes more and more clear that it was the only decision," he said "the correct decision that has enabled us to play a part in history, in the history of holding the line for the free world against the march of Marxism, the totalitarian system.*

He said that Rhodesia would cooperate with any efforts by Britain to convene a Camp David-type peace conference to work out a majority-rule settlement between his biracial interim government and the Patriotic Front guerrillas.

However, he warned that British technicians in Zambia run the risk of being killed during Rhodesian raids into the neighboring country to destroy guerrilla training bases. "We don't, when we go in to attack bases, pause to sort out Britishers from non-Britishers," he

In 1965, Britain offered to grant independence if Mr. Smith promised that a black government eventually would be created, but Mr. Smith's response was to de-

clare independence.
Since 1972, Mr. Smith's regime has been waging a war against na-tionalist guerrillas; the fighting has claimed 14,000 lives. Mr. Smith again attacked the

"We're in the incredibly stupid position that we have the United States and British governments on the same side as the Marxists, the Russians and the Cubans, supporting terrorists," he said.
Patriotic Front co-leader Joshua

Nkomo has said that the conflict will be resolved on the battlefield. Mr. Smith said there was nothing he could do to persuade Mr. Nkomo to attend a conference.

"This is where the United States and British governments have got to play their part," Mr. Smith said, adding that Washington now seems "to be moving into the driver's scat" even though Rhodesia in his view is basically a British problem.

Martial Law Extended

SALISBURY, Rhodesia, Nov. 10 (Reuters) — Martial law was imposed today on 16 more regions of Rhodesia, leaving more than half the country under military rule.

The new zones were mainly tribal reservations northeast and southeast of Salisbury. Martial law was first invoked by Mr. Smith on Sept. 10 when he announced tougher action against Patriotic Front guerrillas fighting to overthrow the transi-

tional government.

By Oct. 5 one fifth of the country had been covered. By Oct. 30 al-most one half had been affected. The only areas now outside military rule are the predominantly Eu-ropean farming lands in the center of the country and the major cities of Salisbury and Bulawayo.

Vietnamese Call From Ship for **Help for 2,500**

KUALA LUMPUR, Malaysia, Nov. 10 (Reuters) — A tramp steamer carrying 2,500 Vietnamese sent out a dramatic appeal for help today, saying it had about 500 sick persons aboard, most of them children, and had run out of food and water after 17 days at sea.

The Vietnamese have so far not been allowed to land because of reports reaching organizations and governments involved in resettlement that they paid gold worth \$5 million to an international syndicate for their passage from Vietnam, and therefore might not be genuine refugees.

In a radio-telephone call from the ship, a representative of the Vietnamese, identifying herself as Mrs. Lee, pleaded: "Please come and help, please come and help. Please ask the UN Refugee officials or the Red Cross to help us. This is an emergency. Please help." She said there were 1,250 chil-

dren, 620 women and 125 old people among those on board Hong, a small coastal freighter owned by a group of Hong Kong businessmen and now anchored near Port Klang, about 14 miles from here.

Pius II Art Is Stolen

Army Hopes to Shorten Hitches

By George C. Wilson

WASHINGTON, Nov. 10 (WP)

The Army has drafted a plan to solve its recruitment problems by shortening the minimum enlistment time from three years to two, and offering a better GI bill to those

who sign up.

The plan, just approved by Army leaders and now on the way to Defense Secretary Harold Brown and President Carter, would start in January in response to a congressional directive to test a new mar-

The idea is to attract young men willing to sign up for two years, but no longer, in exchange for college

The plan is being advanced at a time when the Army is having a hard time filling the ranks of its combat units — artillery, armor and infantry — and is signing up a disproportionate percentage of

Combat Recruits Sought

Robert Nelson, assistant secretary of the Army for manpower and reserve affairs, said yesterday that the new two-year enlistment plan is designed to get more young men into the combat arms and the understrength reserves. The racial mix, he said, was not a considera-

A young man enlisted for the two years active duty, Mr. Nelson said, would remain in reserve status for four years, but would not have

to particiate in drills.
"This gets us into a new market"
where the Army can offer "a mini-GI-bill" to young men who feel a three- to four-year break between high school and college is too long. Mr. Nelson said.

He termed the program "a test to identify the degree people are attracted to this option." Gen. Bernard Rogers, the Army chief of staff, said that lowering the minimum enlistment to two years

would fit into the desire of commanders to shorten the tours of American GIs in Europe. Both Gen. Alexander Haig. NATO supreme commander, and Gen. George Blanchard, commander of U.S. Army forces in Europe, want an 18-month tour for combat troups in Germany rather than the

current three- and four-year ones, Mr. Rogers said. **Tedious Duty**

Duty in Germany, even along the NATO front, becomes tedious after a while, making it hard to keep troops motivated, Army officials

They added that Germany is so expensive for GIs especially those who live there with wives and children, that three- to four-year tours often turn out to be devastating economically. The Army's two-year enlistment

plan would enable a young man not woman - signing up for the combat arms to put aside up to \$7,400 for college. The Army would add \$2,000 to the \$3,600 the Veteran's Administration will already contribute to GIs who allot \$75 of their monthly pay to future educa-

Army leaders must win approval of their plan from a White House pledged to reduce any unnecessary

government spending in the president's fight against miliation. Under the plan the Army has drafted, between 11,000 and 12,000 volunteers would be signed up for two vears next year.

Although attracting more whites into the calisted ranks was not a stated objective of this recruitment initiative directed by the House and Senate Armed Services committees in the closing days of the last Congress, Army officials said a changed racial mix could be one result of recruiting more college-

The Army, contradicting the predictions that preceded the switch to career military service in 1973, is becoming progressively blacker. In

September it signed up the highes percentage of black males, 40.7 per cent, since going volunteer.

Military recruiters target a na tional manpower pool of youn men comprised of 13 percen

Army enlisted ranks, both ma and female, were comprised of 18. percent blacks in 1973 when the draft expired. By fiscal 1978, th black percentage had increased to 29.2 percent and is expected to keep climbing to reach about on third of Army enlisted strength hother end of fiscal 1979.

Another influence on the futurracial mix of the Army is the large proportion of blacks who sign u for second tours of duty.

Domecq Gathers Ransom In Daughter's Abduction

MEXICO CITY, Nov. 10 (AP) -Police said that the family of kid-napped Brianda Domeou yesterday was gathering together the sum of \$1 million to pay for her freedom.

Miss Domecq, 36, the daughter of wealthy Spanish winemaker, Pedro Domecq Gonzalez, was ap-parently abducted from in or near

her home on Tuesday.

Police said that money had been seen being delivered to the Domeco home on the city's south side yes-terday. Friends of the family had been asked not to telephone Mr. Domecq last night so that the kid-nappers could communicate with the family on how they want the \$1

million ransom to be delivered.

Mr. Domecq, 77, a member of the Spanish sherry-making dynasty, was hospitalized shortly after he learned of his daughter's abduction. The first cause of he district. tion. The first news of her disappearance came when she failed to pick up her son Peter, 15, and daughter Fernanda, 10, at school. She is married to Fernando Rodri-

Senate Liberals' Morale Suffers Worse Than Their Numbers

R, Maine

J.J. Exon

D. Nebraska

John Warner

R, Virginia

By Robert G. Kaiser WASHINGTON, Nov. 10 (WP) - The big losers in Tuesday's Sen-

ate voting were liberals, whose rank and morales were both depleted. Republicans gained 3 seats, raising their total to 41. But the new senate will be more conservative than that number suggests. Some committees will have to be realigned, giving Republicans more votes than they had in the 95th Congress that just ended.

Several aides to liberal senators

expressed deep dismay at the deleats of Democratic Sens. Thomas McIntyre of New Hampshire, Dick Clark of Iowa, Floyd Haskell of Colorado, Wendell Anderson of Minnesota and William Hathaway

Conservatives were jubilant at the Senate victories of Roger Jep-sen in Iowa, Gordon Humphrey in New Hampshire, and Rep. William Armstrong in Colorado. All three qualify as right-wing Republicans.

Net Loss for SALT Just how these changes will affect substantive issues before the Senate is not clear, but in at least one important area, they may be significant. By administration reckoning, the election resulted in a probable net loss of two votes for a strategic arms limitation treaty with the Soviet Union, even though SALT was not an explicit issue in the campaign this year.

The potential damage to SALT's chances may have been greater than that, however, because of the defeat of Sen. McIntyre, a key moderate on the Armed Services Committee who was expected to in-fluence other middle-of-the-road senators in favor of SALT.

Sen. McIntyre's departure from Armed Services will have a marked effect on the complexion of that committee, several expert observers

Another committees that will be changed substantially by the voting is Finance, where the two most liberal members — Sens. Hathaway and Haskell - were defeated, and the ranking Republican, Carl Cartis of Nebraska, retired.

THE AND A Finance is one of the committees that probably will have to add a new Republican member next year. The Senate majority and minority leaders will decide on the new distribution of committee seats before Congress reconvenes in January. Republicans will be entitled to 41 percent of all committee seats.

Blows to Morale The blows to liberal morale may have been more serious than actual liberal losses. Tuesday's voting gave liberal Democrats almost nothing to cheer about, and gave anxiety to liberal Democrats who

will be running in 1980. The only shiny linings that liberals saw in the conservative clouds and they looked to some more like tinsel than silver - were in Michigan and in Alabama. Carl Levin, former president of the Detroit City Council and a main-stream liberal Democrat, defeated incumbent Sen. Robert Griffin. R-

Will It Fly Without Controls?

During two years of legislative combat, President Carter shied from a serious attack on inflation as one battle too many. Now that he faces double-digit inflation and bellwether labor negotiations in the oil-refining, trucking and auto industries, the president has finally acted. There is doubt that his package of "voluntary" wage-price guidelines, wage insurance and a suff dose of fiscal and monetary restraint can work without a slide into recession. But given the alternatives, there should be little doubt that the risk is worth taking. Inaction would only guarantee recession, and a deeper one at that.

Until last month, the administration's exertions against inflation relied heavily on finger-crossing. The White House did propose limits on hospital costs, a delay for national health insurance and a lid on federal pay raises. Generally, however, inflation-fighting was subordinated to other objectives. Worthy but inflationary tax increases were at the core of Mr. Carter's energy and Social Security reforms. The dollar's pur-chasing power abroad was allowed to decline in the name of currency-market freedom. Politics led the president to accept a higher minimum wage, curbs on steel imports and larger dairy farm supports, all of which raised prices.

Clearly, the president was banking on luck
— a bountiful grain harvest, OPEC price restraint, higher labor productivity, an improved foreign trade balance — and lost. Inflation, led by food prices, is running at more than 10 percent; it gives no signs of turning around on its own. In October the dollar's orderly retreat abroad turned into a rout, threatening more inflation at home. Without a sharp change in climate, labor contracts costing at least 10 percent more in 1979 seemed inevitable and they would lock the economy into another round of spiraling wages and prices.

Unfortunately, the president had run out of room for maneuver. The prospect of ever higher inflation would soon have generated great pressure for the alternative that George Meany says he already favors: mandatory wage and price controls. These might work for a time, but at very high cost in inefficiency; they would enmesh the government in all business decisions and destroy the valuable workings of the marketplace. The other, more proven method for breaking inflation would be a long, nasty, deliberately arranged

recession that throws millions out of work and reduces the living standard of almost ev-

eryone else. Hence Carter's about-face. In May he wrote off tax incentives as unpromising. The heart of the October plan is tax incentives inflation insurance for workers who hold down wages. Throughout the summer he let the dollar slide against foreign currency and counseled the Federal Reserve Board against forcing up interest rates that would damage the construction industry. Now, he has done the opposite. His dollar rescue operation, to ease the cost of imports and the pressure within OPEC for higher oil prices, depends on the threat of large-scale government intervention in the foreign-exchange market. And the tough new monetary policy, to attract dollars from overseas and to cool down the domestic economy, is sure to raise mortgage loan rates and inhibit construction.

Can this program inhibit inflation without destroying jobs and growth? The White House hopes that budget and monetary restrictions will allow the wage-price guidelines to govern the big labor negotiations of 1979, thus holding down costs to consumers. Then, over the next few years, the guidelines are supposed to reduce public expectations of high inflation, thereby letting fiscal and monetary restraints hold down prices without a sharp decline in employment or profits.

At best, this would produce a growth rate of 2 to 3 percent (half the pace of the 1960s) and leave unemployment stuck around 6 percent. Many economists doubt that government pilots can achieve such a soft landing. Control of the money supply packs a delayed punch of uncertain force. No one really knows how much a steep rise in interest rates will slow down construction or corporate investment. The risks of overshooting the goal and pushing the economy into recession are substantial. Much depends on the skill and will of federal policy-makers.

We are haunted by might-have-beens. Carter was urged even before his inaugural to offer tax incentives for wage and price restraint. The chances of success on this path were certainly greater then. But hindsight is an indulgence. He had to grab whatever initiative he retains. It is better to accept the risk of a mild recession - zero growth and some increase in unemployment — than to blunder into 1979 with no choice except mandatory controls or a mini-depression.

THE NEW YORK TIMES.

The Repressed Conscience

Alexander Podrabinek is, in a way, a lucky man. He is a young Russian medical assistant who was sentenced in Moscow in August for "deliberate fabrications which defame the Soviet system." This now familiar catch-all charge was occasioned by Podrabinek's book, "Punitive Medicine," a report on the "treatment" of Soviet dissenters. He is lucky because he was given only five years of inter-

In a recent article on the case in the New York Review of Books, Peter Reddaway, coauthor of "Psychiatric Terror," observes that Podrabinek owes the relative mildness of the sentence to a vigorous international campaign on his behalf.

Yet Reddaway notes that some major Western organizations that might have been expected to speak out kept silent in the Podrabinek case. They include the American Psychiatric Association, despite the fact that it supported the World Psychiatric Association's 1977 resolution condemning "the systematic abuse of psychiatry for political purposes in the U.S.S.R." That action, although belated, was welcome both in principle and for its practical effects within the Soviet psychiatric establishment.

The United States has moved cautiously on this issue for fear of undermining a sixyear-old accord with the Russians on cooperation in medical research. But U.S. representatives have, commendably, resisted Soviet pressure to give Soviet psychiatry a clean bill, most recently at a meeting in Moscow last month. As a result, cooperation between the two countries on the study of schizophrenia remains minimal.

That price is not too high for the principle at stake. Even as this latest American-Soviet meeting was going on, a group of Russians who monitor Soviet compliance with the 1975 Helsinki accords gave reporters the names of 24 persons they know to be held in psychiatric hospitals for political reasons.

It is understandable that government officials may be inhibited from criticizing the Russians by a desire to continue cooperation on a range of medical problems, including cancer, heart disease, arthritis and influenza. But the free world's psychiatrists need suffer no such inhibitions; they have only their one discipline to worry about. We hope that in the interests of that discipline, and perhaps of their own mental health, they will not repress their outrage at repression.

THE NEW YORK TIMES.

International Opinion

Rejecting Women Priests

By rejecting women priests the Anglican clergy have stood up for the traditional way in which the Church of England is run. All conservatives, be they Christian or not, can take some comfort from this fact. The decision will come as a great disappointment to those women who have felt the call to serve God in the priesthood.

But we are entitled to ask: Would they have felt such a call but for the emergence of women's liberation? We doubt it. The church, which stands at the intersection of time and eternity, never should be a slave to

Moreover, all Christians must agree that Christian reunification ought to be a primary aim. The fact is that the ordination of women

would, because of the strongly held view of Rome, put off this great prospect in aid of a minor concession to contemporary fashion. It is not worth it. The Anglican clergy were

- From the Daily Express (London).

Soviet Union vs. China

Move and countermove follow each other with sharpening hostility as Russia and China maneuver for strategic advantage. China is alarmed at the accelerating extension of Soviet global power, especially in her direction. But China's foreign policy reflects the growing dynamism that has followed Mao's departure. In the West there is not much that Chairman Hua can do other than build bridges, but southeast Asia is another matter. - From the Daily Telegraph (London).

In the International Edition

Seventy-Five Years Ago November 11, 1903

NEW YORK - At a recent dinner of the New York State Medical Association, the Rev. Merle Wright declared: "Where the prolongation of life is simply the prolongation of hopeless agony it seems to me that it would be proper that such a patient should quietly, decently, modestly be allowed to end the suffering. Such a course would be a step. . . further away from barbarism." But Dr. George Shrady objected: "This would be savagery. Medical advances show that a case is not hopeless until the last vital spark is extinguished."

Fifty Years Ago November 11, 1928

KYOTO - While this sacred city reverberated to the imperial 101-gun salute and priests of the ancient Shinto faith pronounced their rites, Hirohito, direct descendant of the sun goddess, mounted to the throne of Japan with his empress at his left hand. A priceless table was provided to bear the sacred jewels, sword and mirror, which form the three imperial treasures essential to any Japanese ruler. One million people outside the palace heard the new emperor pledge to cultivate the friendship of all nations and work for world peace.

ELECTIONS 'Well, How Do You Like It?' Electing Leaders for the '80s By David S. Broder

WASHINGTON — There is an adage (coined here this very moment) that after every election, the country is entitled to one week

For reasons amply discussed be-fore the voting, this midterm elec-tion of 1978 seemed designed to test the faith of even the most fervent believer in such an aphorism.

But after wading conscientiously through the election returns, the through the election returns, the campaign postmortems and the biographies of the new governors and members of congress. I am prepared to testify that indeed there may be one hopeful and important fact about what we have done. We have begun the process of electing a government for the 1980s.

A Continuation

Perhaps it would be more accurate to say that that process was pushed forward by last week's election, because it is a continuation and acceleration of what began in 1974 and 1976. The American people, almost without realizing it, have taken the Capitol building in Washington and the state capitols as well, turned them upside down, shaken out a lot of tired veterans, and replaced them with fresh young people with new ideas and

Here is what happened last Tuesday. There were 35 Senate seats to be filled. Twenty of them went to new people. There were 36 governorships at stake. Again, 20 were won by nonincumbents. In the House of Representatives, with 435 members, at least 77 will be new-

This kind of turnover rate is extraordinary, if not literally unprecedented. When the Senate meets in January, more than half its members will be freshmen or When a tax policy question is be-fore them, they will not hear the echoes of Franklin Roosevelt, Robsophomores, legislators who have served there no more than six years. The story in the House is even more remarkable. Come January, just about half its members will have arrived there since 1974.

A Generation

The striking thing about these ewcomers is not just their numbers but their age. The new govenors elected last week average 49 years of age; the new senators, 43; the new members of the House,

Those ages mean more if you think about the years they were born: 1929 for the average gover-nor; 1935 for the typical senator; 1938 for the average new member

any memories of the Great Depression. World War II was a childhood experience for them. The typical new senator was a firstgrader at the time of Pearl Harbor and just 10 years old when the atomic bomb was dropped. To them, the experiences that have shaped American politics for

the past two generations are mat-ters for the history books. Their shaping experiences came in the period from the Korean War to Watergate. That simple fact probably tells more about the changes that are coming to Congress and the state capitols than any shift in party ratios or supposed alteration in the liberal-conservative balance.

Different Memories When these newcomers face a

decision on foreign policy, they will not think of analogies to Munich or even, necessarily, to the San Francisco conference founding the United Nations.

Letters.

On the Beam

Re "Rights' Competition in Moscow Olympics," (IHT, Nov. 2):

Jonathan Power should be better informed about the purpose of Ra-dio Free Europe and Radio Liber-ty. He is mistaken when he states that part of their job "is to beam hostile criticism into Eastern Europe." RFE limits its broadcasts to Eastern Europe, whereas RL broadcasts to the Soviet Union. Furthermore, their purpose is not to air hostile criticisms or U.S. propaganda, but to give the people of these countries uncensored news.

In the Soviet Union, many non-Russian national groups not only rely on RL's broadcasts to give them the actual news, out also to air cultural programs concerning each of the nationalities. Such broadcasts are important for these people, especially in a country where "Soviet citizens still have no right to speak their mind, organize political and cultural groups or emigrate." At least Mr. Power is correct on the last statement. KERIME SULTAN.

U.S. and Sweden

Concerning the Americanization of Sweden by Bjorn Edlund (IHT, Oct. 26), I would say that Mr. Edlund has not been in the United States for any length of time. First of all, Stockholm is not av-

erage Sweden anymore than New York is average U.S.A. To say that average Sweden has a mobile population is not true, the average Swede is born, raised, and lives and dies in the same area. I was born,

raised, and lived in the United States for 50 years, and have now lived for 10 years in Sweden; let me add that only economics keeps me from packing and returning to the United States.

United States.

A few hamburger shops may exist in the largest Swedish cities, but I have not seen a single drive-in hamburger place anywhere and I do not believe that any drive-in hank or these exists here either. bank or theater exists here either. The majority of these so-called hot dog kiosks serve a frankfurter with mashed potatoes, which does not remind me of the United States. As for the reference to seven

years of English in Swedish schools: Let me say that an American is told in no uncertain terms that it is British English that is taught, and not American English, as if they were two totally different

languages.
Further, the sense of freedom in the United States is never more real than after living in this totally controlled society.

LENNART STENWALL. Floby, Sweden.

Grieving

One might have expected that the English language would begin to deteriorate a little once Miss Janet Flanner left us. But so soon?

Your obituary (IHT, Nov. 8) for this talented and meticulous journalist say she "pervaded" Paris, accumulating knowledge. And de-scribes her reporting as "some of the most insightful."

I think it is sadful. CARTER B. CORDNER. ert Taft, or even necessarily Hubert

er in the years just ahead.

They are creatures of a different, more skeptical and more equivocal age. And we must know that the

ovenment they will give us in their first term in office — a term which will extend into the 1980s — will be different from what we have known government to be in the past. To suppose otherwise is to imagine that generations make no differ-ence. But they make an incalculable difference, as we will all discov-

It's Toting-Up Time for Carter line !!

By James Reston

WASHINGTON — President Carter is now facing the hardest choices of his first two years in office. In the preparation of his budget between now and the end of the year, he must decide be-tween the conservative themes of the November election and the rising financial claims of his domestic and foreign policies. One immediate issue illustrates

his dilemma. He reversed his declining political fortunes by his bold and successful moves to avoid a really serious Middle East crisis at Camp David, but now the bills are coming in.

Prime Minister Begin wants as-surances that Israel will continue to get \$1.8 billion in economic and military aid each year and also that the United States will pick up the cost of dismantling the Israeli air bases in the Sinai. Estimated cost:

It Adds Up

President Sadat of Egypt, having rejected a 10-year, \$50 billion offer from the anti-Israeli Arab states to repudiate the Camp David compromise with Israel, is now talking about a U.S. "Marshall Plan" for his country. Estimated cost: \$10 billion-\$15 billion.

As the late Republican leader of the Senate, Everett McKinley Dirk-sen, once remarked: "A billion here and a billion there soon adds up to money." And this is Jimmy Carter's problem. Not later, when the Congress comes back in January, but now.

Begin and Sadat have been awarded the Nobel Peace Prize for a peace treaty they have not yet concluded. They are invited to receive it and explain it in Oslo early in December, but are holding out for certain "unresolved details," which means, among other things, support from the United States to conclude the deal.

The International Herald Tribune welcomes letters from readers. Short letters have a better chance of being published. All letters are subject to condensation for space reaons, Anonymous letters will not be considered for publication. Writers may request that their letters be signed only with initials but preference will be given to those fully signed and bearing the writer's complete address. The Herald Tribune cannot acknowledge letters sent to the

Carter has other problems. He really going to make the hard de says the two main objectives of the

next two years are to get the inflation and military arms race under control. But he faces fierce opposition to cutting the military budget and needs the support of the Pentagon and its defenders in the Congress in order to have even a chance of negotiating and ratifying a strategic nuclear arms agreement with the Soviet Union. He acknowledged Thursday at his news conference that it would be a "tough fight" to win Senate ratification of a SALT pact.

In his first two years in office, Carter has recognized all these contending forces at home and abroad, and has tried in turn to get them on his side by preaching to them, by opposing them, and by appeasing them. But now, at midterm, he is confronted by the tyranny of time and decision.

The president is not like the candidates for Congress who were elected against big spending while spending more in this midterm election than ever before. They can come in now and spout their opin-ions, as Carter himself did two years ago, but he has the harder job of reconciling his rhetoric with his

Many Constituencies Unlike the members of the

House and Senate, he has not one but many constituencies - not only Big Labor and Big Business, but the farmers' lobby and the vetcrans' lobby that just talked him into an outrageous \$3 million program. Labor Leader Assails President's Economics

Meany Sees Conservatism, Carter Defeat

By Philip Shabecoff

WASHINGTON, Nov. 10 (NYT)
— George Meany, organized labor's chief spokesman, said yesterday that President Carter was "the most conservative president I have seen in my lifetime," and that Tuesday's elections results indicated that Mr. Carter might not be reelected in 1980.

elected in 1980.

At a luncheon meeting with reporters, Mr. Meany, president of the AFL-CIO, accused the president of the AFL-CIO. dent of designing economic policies that would fight inflation by creat-

ing higher unemployment.

The labor leader, who is 84, said that the elections confirmed that there was a conservative trend in the country and that labor's chances for obtaining favorable legisla-tion from Congress had been diminished. But he did not rule out the possibility that the labor federation might seek revisions in the national labor law next year. A bill to change the labor law was killed by a Senate filibuster this summer.

Greater Ideological Shift

Other labor officals interviewed also expressed concern about union prospects in the new Congress and agreed that there was a greater ideological change than indicated by the shift of a few votes from the Democratic to the Republican col-

Mr. Meany and other labor leaders expressed satisfaction over the defeat in Missouri of a proposed "right-to-work" law that would prohibit contracts that require workers to join umons after they are employed. About 20 states now have such laws. It was believed that if such a measure were adopted in Missouri, a fairly strong union state, then many other states would rush to follow suit.

in the second

a hands of the

in the

Mr. Carter, at a news conference in Kansas City, Mo., said yesterday that he had "a minimal, at least, degree of support" from Mr. Meany for his economic policies, adding that the labor leader had not reject-ed his proposed voluntary wage and price standard and had encouraged union officials to cooperate if it met their needs.

The president also said he had no intention of adopting the mandatory wage and price controls pro-posed by Mr. Meany.

No Sign of Cooperation

However, Mr. Meany, who has been feuding off-and-on with Mr. Carter virtually since the president took office, yesterday showed no indication of any willingness to cooperate with the administration's

economic program.

He said that the effect of the president's anti-inflation program so far has been "zilch" and that fu-

Male Model Claims Half of Actor's Estate

SANTA MONICA, Calif., Nov. 10 (WP) — A man who claimed he lived with actor James Daly for more than two years before Mr. Daly's death has filed a creditor's claim for half the estate under legal principles established in California for unmarried couples, the Los Angeles Times reported.

Mr. Daly, 59. died in July. He was best known for his role as Paul Lochner on the television series "Medical Center."

Randal Jones, a model about 30 years old, claimed in papers filed Nov. 1 in Santa Monica Superior Court that he was entitled to half of Mr. Daly's estate because he and the actor agreed to share their earnings and

In return, Mr. Jones had agreed to "devote his full time and attentions to caring for [Mr. Daly's personal needs as his companion, homemaker and confidant," according to the papers.

Africa Leaders Form Sahara Peace Panel

UNITED NATIONS, Nov. 10 (Reuters) — Six African heads of states have formed a committee to try to bring peace to the former by to bring peace to the former Spanish Sahara, now ruled by Morocco and Mauritania, the Sudan said today in a letter to UN Secretary-General Kurt Waldheim.

The Sudan holds the chairman-

ship of the Organization of African Unity. The letter said that Su-danese President Gaafar Nimeiri. arms treaty.

Carter Signs New Overseas Tax Law

By Robert C. Siner

WASHINGTON, Nov. 10 (IHT) — President Carter earlier this week signed into law a comprehensive revision of the taxation of Americans abroad, which will replace the current income exclusion with a series of special deductions.

The measure, approved by Mr. Carter hours before the midnight Wednesday deadline, also provides that income earned in 1977 be taxed under the pre-1976 law, which allows taxpayers abroad a \$20,000 income exclusion (\$25,000 for Americans

working overseas more than three years).

For income earned in 1978, taxpayers can choose between the provisions of the new law and

those of the 1976 Tax Reform Act. Income earned in 1979 and thereafter will be taxed under the new

The Internal Revenue Service will issue instructions to those taxpayers who have either not yet filed for 1977 or need to file amended returns, but these have not yet been made public. However, there are reports that the Nov. 15 filing deadline will be again extended to allow taxpayers additional time to get their returns to the IRS.

Along with its deferral of the 1976 Tax Act pro-

visions, the new law, passed just before Congress adjourned in mid-October, includes special deductions for housing education, cost-of-living, home leave, hardship posts and moving expenses.

Arms-Control Appointee Was in Anti-SALT Group

By Don Oberdorfer

WASHINGTON, Nov. 10 (WP)

- President Carter's chosen apcointee to be director of the Arms

was the possibility of controversy arising from Gen. Seignious memcointee to be director of the Arms - President Carter's chosen ap-pointee to be director of the Arms Control and Disarmament Agency was a member for three months earlier this year of a national or-ganization set up to "stop SALT-2" on grounds that the expected strategic arms limitation treaty with the Soviet Union will "lock the

U.S. into military inferiority."
This brief affiliation of Lt. Gen.
George Seignious with the American Security Council's "Coalition for Peace Through Strength" is causing concern among administration officials responsible for sending his name to the Senate for confirmation.

According to some official sourc-

Agee Reveals CIA Efforts Against Soviet Diplomats

By David K. Shipler

the CIA had an active program aimed at discrediting Soviet diplo-mats and disrupting relations be-tween Communist countries and Latin American states.

In an interview published by the magazine Zhurnalist, Mr. Agee described a 1965 incident in Uruguay. I developed a plan whose goal was to 'prove' that several Soviet diplomats directed the activities of strikers through the CNT [National Council of Trade Unions," he was quoted as saying. "Four or five em-ployees of the CIA bureau in Uruguay took part in putting the plan into effect. We took the names of the most talented diplomats from False Gandhi Votes the embassy of the U.S.S.R. and created a list of people allegedly involved in subversive activity.

"Our plan was to use falsified documents to create a break in diplomatic relations with the Soviet Union in that period of crisis."

The CIA forged a letter to a Soviet cultural attache named Tkachenko, he said, allegedly signed by Daniel Waxman, one of the trade union leaders, thanking the Russians for "valuable help and instructions."

The letter was put into the hands

as an agent, was quoted today by a Soviet Intervention!" In the next 11 Soviet magazine as having said that months, Mr. Agee is quoted as havlar CIA operations resulted in the expulsion of six Soviet diplomats, two East Germans, one Czechoslovak and several others.

According to Zhurnalist, Mr. Agee said that the CIA had two goals with respect to the Soviet Union: to hire spies and to discredit Moscow in the eyes of the rest of the world, "particularly in develop-

Opposition Claims

NEW DELHI, Nov. 10 (Reuters) - Industries Minister George Fernandes said today that he intends to challenge former Prime Minister Indira Gandhi's by-election victory to Parliament this week on the ground of large-scale phony voting. Mr. Fernandes, who led the Janata Party campaign against her, claimed that thousands had been

brought to Karnataka state to vote

MOSCOW, Nov. 10 (NYT) — of an Uruguayan journalist and found its way into all the country's of the CIA who wrote "The leading newspapers under head-Company," a book about his work ing told the Soviet magazine, simi-

ing and capitalist countries.

using names of Tamil workers on coffee plantations. Mrs. Gandhi won the election in Chikmagalur by

as a White House meeting with President Carter to discuss the appointment. Conceding that the timing of the letter gives an opposite impression, Gen. Seignious said it is "untrue" that anyone in the Carter administration asked him to get out of the organization. "I think a strategic-arms agree ment is absolutely in the best interest and the security interest of the United States. If the remaining, problems are successfully negotiated. I can and will support it." Gen.

Seignious said.

Golden Ellipse and 18 kt. blue colored gold. They invariably identify Patek Philippe designs. They tell you that the watch was finished entirely by hand, in the manner practiced by Patek Philippe since 1839. The Golden Ellipse was derived by Patek Philippe from the Golden Section, the principle which already inspired the design of the Parthenon. Blue colored gold is a bit of alchemy signed Patek Philippe.

Men's model Ref. 3748. Cufflinks also feature Golden Ellipse, 18 kt. blue colored gold.

By Jonathan Power

Variously described as a senior adviser to Soviet President Leonid Brezhney and as Moscow's No. 1 American-watcher, the precise influence of Georgi Arbatov is a question of some debate. Some see him. alongside Anatoly Dobyrnin, the Soviet Ambassador to Washington, as no more than the key source of information on the United States for the Politburo. Others see him in a larger light — a policy-maker who would carry a degree of influence in comparative terms somewhere between Zbigniew Brzezinski, President Carter's security assistant, and Marshall Shulman, the Soviet-affairs adviser to Secretary of State Cyrus Vance. By his own score Mr. Arbatov sees Mr. Brezhnev privately three or four times a year and Foreign Minister Andrei Gromyko more regularly, perhaps monthly. To still others he is a source of "disinformation" — the Soviet Union's sophisticated propaganda voice who briefs Western journalists and parliamentarians in gentle tones that belie the true nature of the harsh self-interest of Soviet power.

Whatever the truth is, and no one outside the Soviet Union can have more than an informed guess, the interview below is in a number of respects unusual. It was begun over lunch in a Moscow restaurant and continued in Mr. Arbatov's office at the Institute of

the USA and Canada, of which he is the director, until 7:30 in the evening. An hour was spent the following day tying together loose ends. Altogether I recorded five hours of conversation. It was on the record, done without notes on Mr. Arbatov's part, and without no tice of questions. He answered every question I put to him. I mention this because the number of occasions on which high Soviet officials have been interviewed in this way at this length is exceedingly rare. In fact it is the most detailed interview of its kind in recent years.

Parts of it could be considered as "disinformation," an attempt to present the Soviet case in its best wrapping — for example, his comments on human rights. But other parts of it certainly do not accord with that view of his role. On China, to take the most significant part of the interview, he is spelling out for the first time an important development in Soviet foreign policy. If the West pursues its relationship with China be-yond a certain point, he said, then there is no place for detente, not even for SALT.

This suggests that Mr. Arbatov is close to the center of Soviet power and is trusted to handle the most deli-

Mr. Power is a columnist for the International Herald

Georgi Arbatov, the Soviet America-watcher.

Moscow's No. 1 American-Watcher Keeps Wary Eye on U.S.-China Ties

Jonathan Power — There is a growing con-sensus among Western defense analysis that during the last 15 years the military balance has shifted in favor of the U.S.S.R. You must be aware that this shift couldn't have occurred without self-imposed restraint by the United States, and I won-der what that tells you.

Georgi Arbatov - I don't agree with the secer has changed, but if you make such comparisons you must always try to understand the time span you have chosen. Fifteen years ago it was '63. The U.S. were in the middle of a tremendous jump of strategic forces, a program under-taken by Robert McNamara under guise of this alleged missile gap. The number of missiles increased maybe ten times. This program was finished I think in '65 or '66. Of course we had no way out but to reach approximately the same level. We couldn't agree with U.S. military supe-riority. We were for parity. And I think that part of the problem now is that the United States are unwilling to accept not the non-existent Soviet superiority but the principle of parity. And there was no self-restraint on the American part recently — just the opposite. The U.S. deployed during this time MIRVs and Tridents, were developing Cruise missiles, neutron bombs and other weapons systems. At the same time I would like to stress it is our policy not to try to seek or to achieve military superiority.

Q. — A number of Western analysts looking at the discussion of mutual and balanced force reductions (MBFR) in Vienna argue that there is no parity in central Europe. They wonder whether the Sovier Union would be prepared to consider asym-

A. — I have noticed that serious Western analysts have never questioned whether there is par-ity with the Soviet Union. But they say that in a few years, if the present trend continues, the Soviet Union will then have superiority. But I think that the framework which already is emerging in Vienna is an answer to that. We can even brush aside the present disputes about how many troops or tanks both sides have now because our proposal is to have an equal number of troops on both sides. You mentioned asymmetrical reductions. If we translate it into human language this means simply that the Soviet Union must reduce more than the West. We do not like this idea, but even this is irrelevant if we can come to an agreement now to have an equal number of troops.

Q. — The economic development of Siberia is, the next big step for the Soviet Union on the economic front. Is this going to make it more import-ant to have intensive economic and political coop-

A. - You know we will develop Siberia anyway. At the same time, of course, cooperation with the West as well as cooperation with our allies and friends from socialist countries can speed up this development and can really make it easier. The more developed our country be-comes the more it can realize from the international division of labor. We are for the international division of labor. We want to participate much more in world trade, in different kinds of cooperation, technological and economic. I think it really can become a significant part of

Q. - Zbigniew Brzezinski said to me when he talked to me last year that "the fact of the matter is that if we used all our nuclear weapons and the Russians used all their nuclear weapons about 10 percent of humanity would be killed." I know from a speech that Mr. Brezhnev made that there was some anger here about that remark. I wonder what your personal reaction to it was.

A. — The first thing, 10 percent is a lot of people. It means about 450 million people, which approximately is the population of the United States and the Soviet Union together. I think even this number of people is a prohibitive price for practically any purpose for which a war could be waged. The second thing I would say that the number 10 percent is simply a guess, a very rough guess and many people whom I know, who write about it and talk about it would not agree with this estimate. Many scientists and specialists give quite different estimates
— even the possibility that a nuclear exchange would simply make very dim the prospects of survival of humanity itself. And my third comment would be that I was struck, I would say, by the style and the form of this answer to your question in your interview. It was really a very sinister declaration when you take into account that it was made by one of the high officials of the U.S. government. You could of course take it as a personal opinion of Mr. Brzezinski, but I can see that it somehow confirms my impression that not all Americans realize we have no alternative to peaceful co-existence in this nuclear

— If we could turn now to a different subject. I would like to ask you some questions about American politics. Who do you think holds the balance of power in Carter's administration as far as

- We have undertaken at our institute a short study in retrospect of the presidents of the United States we remember, let's say beginning with Eisenhower. The conclusion was that the first two years of presidency do not show in a single case what the policy of a given man would ond part of your question, but I agree with the be. Some of them pursued a better policy than first. Really during 15 years the balance of powyou could have thought judging from the first two years. Some of them disappointed us in this respect. I tell you this because I'm really very reluctant to come to any final conclusion about the policies of the Carter administration. What would be a safer assumption now, I think, is to say that the holder of the balance of power in Carter's administration is the president himself.

Q. — That's a very safe answer. But who would you say now has got the president's ear on the issues of East-West relations, Mr. Vance or Mr.

not a very brilliant reputation in this country, viet Union be so sensitive to criticism of its failings but in my view he cannot be their source of on human rights? foreign policy. Maybe at times he can be more an indicator of foreign policy, the amount of he can indicate what those who decide American long-term influence on foreign policy, more than the President's assistant, although I don't under-Brzezinski's position. It can be rather

American administration are products of the Viet-nam generation. How do you think the lessons of Vietnam affect their positions on U.S. foreign poli-

A. — I think the answer must be complicated because the Vietnam syndrome, as it is called in the United States, works partially of course in the direction of more cautious policy, not to get involved in some similar situations, etc. At the same time, among some policy-makers it has produced fears that after America's defeat, America won't be taken seriously by its adversaries and also by its allies - and so you have to do something to redress the situation and show that America can be strong, can really be resolute enough to do whatever it considers to be important. In the first year and a half at least of Carter's administration there was a feeling that this was the time that you have to play tough, you have to persuade everybody that America hasn't lost its power. This can become rather dangerous sometimes. I would say a serious misperception. In reality I don't think that anybody believes that after Vietnam — which was of course a defeat for the United States and it had to pay for a bad policy, a wrong foreign policy — that America has stopped being a big country and lost its influence. In the U.S.S.R. there is no wish to play "chicken" with the Unit-ed States. We understand the importance of peace and detente.

Q. — Brzezinski told me a year ago that he believed "the historical inevitability of our time is not some utopian revolution but it is the increasing not some incomer evolution on a is the increasing self-assertiveness of man on behalf of his own human rights. I think it is a good thing for the United States to be associated with that inevitab-Obviously Brzezinski thinks the United States

is winning the war of modern ideas. Presumably

A. - I would say that here I think he very artificially puts one against the other, the revolu-tion against human rights. I can assure you that our revolution was made for human rights. The point is, of course, what you understand by human rights. And I think this is important because human rights is not limited to the right to emigrate. I understand the importance this right has to American minds because all of them apart from the Indians are emigrants or children grandchildren of emigrants. But you know there are a lot of other human rights which are important. Each people has the right to set up its own prime priorities of human rights. Here the rights that were the main driving force in our revolution were very essential human rights. One was peace, another the right to live, bread, to have something to eat, not to starve

Q. — Russia has long criticised the West's hanzezinski:

dling its racial minorities or its lack of welfare
A. — About Brzezinski you know that he has state facilities and so forth. So why should the So-

 A. — Well you know it is more than criticism. We have lived with criticism ever since the revoelbow room he gets at a given moment, maybe lution. What we are now facing is a consistent effort of interference in the internal affairs of policy want from their policy. In general, I think the Soviet Union and an attempt to inflict harm that the Department of State has more of the on some of our institutions. It is waged in a way the Soviet Union and an attempt to inflict harm which would have produced a serious uproar in the United States if we'd done what you've done towards the U.S.S.R.

Q. — But you have done the same, giving sup-Q. — Many of the present senior staff of the port to dissident black groups, for example, in the United States.

A. — I want to be understood correctly. I understand that it is a very natural thing that you have your opinion about our institutions and we have ours. Both sides are free to express their opinions. This is the world we live in and I see no way to change the situation. But what would be the U.S. reaction, let us say, if our parliamentary delegation comes to the United States and organizes clandestinely or semi-clandestinely some meetings with the families of the Wilmington 10, with the Indians who fought at Wounded Knee or with the Weathermen or a leader of Black Panthers? And if our journalists would be in constant touch with them, take their material and republish it here, bring them some money, messages, hints. I'm sure it would create an uproar in the United States. But what I told you is just the regular practice of Americans, and not

Q. — The French Communist Party has had a setback in this year's general election. Do you think the European Communist Parties in France, Italy and Spain stand a hope of coming to power or sharing power in their respective countries in

the near future?

A. — Well as for coming to power I don't see the situation ripe yet in any of these countries, where it can happen in the near future. But the sharing of power — I think that unofficially it is already happening.

Q. — You are talking about Italy?
A. — Italy, for instance.

– Anywhere else? A. — No not — well in France it is different but it is also an important political force. It is an important political force in Finland.

 Would you like to see the Communist Party of Italy, with its present leadership, enter the A. — Well as a Communist I would like to see

I would like them to have as much success as Q. - You don't think with the kind of critical

them coming to power of course, and in general

relationship they have towards the Communist Party of the Soviet Union that to have a Communist Party of that style in power, with the position and voice that that would give it, that it would make a negative contribution to the growth of the communism you believe in?

A. — No I don't think so. You know it is our

belief and our position that each Communist Party has the right to search for its own ways in their tactics and their political struggle. And in the methods and forms of building the new society once they are in power. It is actually not a theoretical fact, you know. Would you care to study Bulgaria, Hungary and Poland and Czechoslovatcia and Germany — they all have some differences. We have more complicated history of relations with Yugoslavia. Sometimes there is mutual criticism, but I think it is good that there is a socialist Yugoslavia, and it doesn't inflict harm on us. You know if countries become socialist and they will experiment in some new methods - if they are successful, we will eagerly learn from them. If they are not successful, we will regret it. We will have the right as we have now to discuss experiences with each other with a spirit of goodwill. (Of course I don't speak about the vicious attacks we get from China.) I don't think it will undermine socialism, it will only serve the good of socialism if they fare well, if they have wise policies, if they understand well the national peculiarities of their country which make them search for these new forms but at the same time understand some general principles — not simply theoretical principles but the general trends which are there in economic construction and many other fields.

Q. — You mentioned China. How great a mili-tary threat does China represent to the U.S.S.R? A. — I would say that we have no inferiority feeling - we are not scared by China, but you can't simply brush it away. This is a country with almost a billion people — a country I think with the biggest army in the world and the country whose rulers proclaim that war is inevitable and detente is only an attempt to fool people. So you have to be serious about it, having as we do thousands of kilometers of common border with such a country.

Q. — But is an agreement on the limitations of strategic arms particularly important to the Soviet Union because it would then release pressure on the European front and allow it to concentrate its

military resources on China?

A. — I don't see any connection between these two events, because what we consider necessary to make our border with China safe we have already done. So we'll look upon the benefits which we'll realize from an arms control agreement as an opportunity to facilitate our economic development and the solution of some other problem. If the Chinese threat rises, if they become more aggressive in their attitudes and increase in substantial terms their military force, then we will be obliged to take measures anyway, with or without SALT. Our people, I'm sure, in this case will fully understand that such measures are really necessary.

Q. - Do you think the recent Sino-Japanese treaty will have any impact on Soviet/American

A. - Well it's rather difficult to assess its future fate and its future influence. It can have a global influence if it becomes a close alliance. I think it will make jittery many nations of the world. I think the Americans will be the first to be unhappy if Japanese technology is connected with cheap Chinese resources and cheap Chinese labor. Competition will become even greater. This treaty has introduced strains into our relations with Japan. However, the Japanese have proclaimed that they do want to develop their relations with the Soviet Union and they don't want this treaty with China to interfere with their relations with the Soviet Union. We'll have to wait and see what the Japanese policy really will be like. But it is at the same time a very serious test for the political wisdom and intention of the West. The temptation is of course to use the improvement of relations with China, to develop them in a way which will help increase leverage on the Soviet Union. It is not our policy to try to spoil our relations with countries which improve their relations with China. But if it's done on an anti-Soviet basis it can affect our relations. The fact is that decisions must now be taken which affect maybe the future of international relations. In pursuit of the temptation of rather short-term gains there could be laid the cornerstone of an absolutely new set of international relationships which would make nobody very happy. There are several possibilities. One which I hope will not materialize is if China becomes some sort of military ally to the West, even an informal ally but ally also in the military sense. Then the whole situation will look different to us. We would have to re-analyze our relationship with the West. If such an axis is built on an anti-Soviet basis then there is no place for detente. Even in a narrow sense. If you take, for instance, arms-control negotia-tions, what sense would it make for us to agree to reduce armaments in Europe if armaments are simply to be channeled by the West to the Eastern front? But it is not only this. If China increases its military power with such support from the West, it will start new series of chain

which are being taken to introduce detente and arms control. But here a lot depends on the influence on Chinese policy of the United States, of Japan and the Western European countries. Q. — Marx, in his wildest imagination, would never have dreamt of the two big Marxist powers caught up in this relationship of conflict.

reactions in the arms race. I have in mind India

and Pakistan and their neighbors, a whole chain which goes through Southeast Asia and part of

the Pacific. We are not scared, we are sure the

Chinese know very well that we have a defense

capability which won't make us an easy object of aggression. And they will turn not against us in this case. I think. Well, I don't say all this is

inevitable. I hope that it will not develop in this way, that the natural course of development will lead in the opposite direction: that China will in

time turn all its efforts toward the tremendous internal problems they have, developing the country and improving the standard of living etc.; that China in time will join the efforts

A. — It's now a very long time since the Chinese have based their policies on anything resembling Marxism. Theirs is a very nationalistic policy. There were, of course, people in the Chinese Communist Party who were real Marx-

ists, but some of them have died, some of ther being were pushed aside or were put in prison or kille guilt-during the Cultural Revolution and the perio after it or at some other time. I am not a specia, ist on China, but I understand now there is give return maybe not to Marxism but at least to push common sense, in the economic policy of Chineses And some departure from some extreme Maoi-min the ideas and principles.

Q. — But it is this new regime that has signed for the the Sino-Japanese treaty.

A. — Yes, here is a divergency. The foreign policy is different. I have my guesses about the Chreasons for that I cannot believe that the Ch nese leaders really are afraid that we will start war with them. Even assuming we don't have any good feelings towards them, they must up 18. derstand that it is common sense not to do inductive But I suspect that they need such a foreign with threat, the externalization of evil, for their interpolation nal needs for holding the country together. The entities also consider their anti-Soviet policy to be in strumental in getting support from the West, where the doubt very much that would the Soviet Unit selected. be in the same relation with China as we were the '50s the Chinese would get all the attention's the credits, trade and other assistance they and Washin then, so maybe they think that they can get the with their anti-Soviet policy.

Q. - From the West? A. — From the West.

China becomes some sort of ally with the Westerling even an informal ally, then there would be no plank source for detente. Now, I wonder how you decide at white the point the West would have become that kind white ally. Would it be if Britain goes ahead and select much Harrier jets to China? Would that be crossing the transfer of the line?

A.— Well it would be a very unwise, it would be a very unwise, it would be a very unwise, it would be not be favoring detente if the British did this tepta. But of course it is very difficult to draw the linguistic behind which quantitative changes grow interesting qualitative changes. This will evolve out of the relation whole political situation. I stress here that the scient military aspect of the program is very important where mandators are the stress here that the scient interesting to the program is very important. tional situation is. I think that if the policy (detente is pursued consistently and there is i general relaxation of tension and arms continued; it will seriously influence the policy of countries. China not excluded. But you can reconcile detente with attempts to make Can some sort of military ally of the North Atlant Treaty Organization.

Q. — Obviously it's impossible that Chirwould be a formal ally, so we are talking about more a process over time of helping re-equip to Chinese Army. How many Harrier jets have to sold before it stops being a trade deal and it becomes a military relationship?

A. — I would prefer that no Harrier plane to are sold at all. In a time when the world commis nity begins to take its first steps to discuss the sale of arms to other countries, to begin arm sale to a country which has a very hostile por ture towards us, and towards many other count tries, cannot be considered a step which can b reconciled with good intentions.

Q. — So that's like Khrushchee selling rockeing, AU De to Cuba, I suppose?

A. — Well I'm not sure that he sold them.

Q. — Transferred them. A. — But anyway I think a closer example would be our selling rockets to Northern Int land, although we can sympathise with the

Q.— It would be a bit more like transfer, rockets to Cuba.

A.— Well it would be—anyway, I would that you have to make the crucial decision. You want to build the bridge across the river along the given What intermetional situation decision. along the river? What international situation d you want to create in this dangerous nucles' age? Do you really want to have real, find guarantees against a catastrophy, against a hold caust? I think we need more than 100 percent guarantees because the risk is so great. If you do want detente in Europe let's say, if you wark arms reduction in Enrope, you will be very unwise and very inconsistent and even self-defea wise and very inconsistent and even and danger and ing if at the same time you try to (an up danger) and the ous situations in another part of the world.

Q. — What did you think of Zbignlew Brzezin ski's statement earlier this year that the View namese Cambodian clashes represented the fin case of a proxy war because the Saviet Union an

A.—Well, this is nonsense. Because the situal GODI tion is different. We don't want to wage any want directly or by proxies with China. Chinase poil cy towards Cambodia is directed against View nam. For those people in the West who are fool of human rights Cambodia reveals just what is much fluence the Chinese exert if they have an influence the Chinese exert if they have an influence in a country. There is outright genocide.

U.S. Seizing Fewer Aliens Who Get Past Border

Aggressive-Search Policy Reported Easing

By Christopher Dickey

WASHINGTON (WP) — The U.S. Immigration and Naturalization Service has quietly abandoned its policy of aggressively searching out illegal aliens within the United States, according to sources within the agency.

The extensive raids on businesses and restaurants, the sweeps of whole blocks in ethnic neighborhoods, the random questioning of persons with foreign accents or appearance are now largely "things of the past," in the words of a U.S. immigration official.

"If they could," the president of the INS Council (AFL-CIO), which represents 5,300 INS employees, said with exasperation recently, the service's administrators would "just about have an open-door policy -come one, come all."

. The INS commissioner, Leonel Castillo, has said that he does not advocate such an approach, though he has long supported a policy of amnesty for many of the nation's illegal aliens. He did say in a recent interview, however, that once an illegal immigrant gets past the border "the odds are that [he] won't be stopped." The odds [for being stopped] are not as great now as they were before." While some arresis and deportations still take place, Mr. Castillo has diverted most of the service's attention toward attempts to make the border more secure and to process applicants for such benefits as permanent residence and citizenship with

Since his appointment last year to succeed the hard-line administration of Gen. Leonard Chapman, Mr. Castillo has been at the center of one of the most volatile issues fating the United States. The arrival of millions of illegal immi-grants during the last decade has been the subject of major disputes, not only because they are seen by some environmentalists, labor unions and politicians as a threat to the U.S. standard of living, but because there is so little hard information about them. Estimates of their numbers vary, from 3 million to 10 million nationwide.

In a national poll taken last year by the Roper Organization Inc., 91 percent of the respondents said they favored an "all-out effort to stop the illegal entry into the United States of. . . foreigners who don't have visas."

Nationwide Drop

Recent court decisions making it more difficult to search for, and question, suspected illegals, and congressional inaction on the Carter administration's proposed reforms of the immigration laws have further complicated the situation. It is in the face of this philosophical and legal snari that Mr. Castillo has made such major revisions in the immigration service's priorities.

The result of this change has been a decline of approximately 16 percent in the number of illegal immigrants apprehended nationwide, except at the borders, from 221,000 in fiscal 1977 to an estimated 185,000 in fiscal 1978. Apprehensions at the Mexican border, where most illegal immigrants enter the United States, have increased during the last year, from 812,500 to 862,200.

Within the immigration service, according to many employees, morale is at a low. Part of the problem has to do with pay cuts and attempts by the Office of Management and Budget to take the Border Patrol away from the INS and transfer it to the Treasury, which handles customs

But many also blame Mr. Castillo and his deputy, Mario Note, for not allowing them to enforce the laws that exist. J.B. Hillard, president of the INS Council, said that around the country there is a mood of intense frustration among many INS investigators.

"If you're being held back from doing everything you can do while the problem is increasing — it certainly is not decreasing — all you have is more and more people coming into the country with less and less likelihood of being apprehended and deported." Mr. Hillard said.

Hispanic and other immigrant organizations have attacked Mr. Castillo and the Carter administration for putting too much emphasis on enforcement and too little on what they consider the only solution to the problem - tohelp create jobs and better living conditions in countries such as Mercico, where most illegal immigrants come from

Nicaraguan Assails Carter

Somoza Says U.S. Cutting Loans to Force Him Out

President Anastasio Somoza said that the Carter administration has suspended assistance loans to Nicaragua in an attempt to force him

The latest is that I understand the latest is that I understand everything [loans] is suspended," the 53-year-old Gen. Somoza told newsmen yesterday at his windowless, concrete presidential office known as "the bunker." He said: "Every loan facility that the United States government could give States government could give Nicaragua, they have suspended because of the troubles we had in

N.Y. FBI Agent **Pleads Guilty** In Bribery Case

WASHINGTON, Nov. 10 (WP)

A New York FBI agent, the first ictive duty agent ever indicted, leaded guilty yesterday to ob-inucting justice during an investi-ation of charges that he took a 10,000 bribe from an organized

Joseph Stabile, 50, resigned from the bureau and turned in his badge and gun shortly before entering the nity plea before U.S. District ourt Judge Thomas Platt.

Stabile was indicted in mid-Sepmber on two charges that he lied out cash he allegedly took several ars ago to quash gambling arges against John Caputo, a re-ted member of a New York orgaed crime family. That was just o days before the five-year statof limitations for perjury ran

He was indicted again Monday six counts of conspiracy and ob-ection of justice growing out of

n return for the one-count guilty a, the other seven felony charges the civil uprising had di inst him were dropped. He faces possible five-year prison term. this party," he emphasized.

tionwide uprising to overthrow Gen. Somoza but the National Guard crushed the rebellion in two weeks of fighting. At least 1,500 persons were killed.

Gen. Somoza did not reveal the amount of the loans and U.S. Embassy officials had no comment. Gen. Somoza said the loans would have been granted for educational, nutritional and road construction

White House Accused

"I feel there are people in the Carter administration who have thought that they could overthrow me. They have tried to overthrow me, overthrow my government," Gen. Somoza said.

In Washington, a State Department spokesman said all military assistance to Nicaragua had been suspended and that "we are not processing new economic ssistance applications from Nicaragua because we do not want to do anything to construe we favor one

group or another."

Diplomatic sources here earlier this week said that the United States is now convinced that the only solution to the Nicaraguan crisis is Gen. Somoza's resignation. However, Gen. Somoza reiterated yesterday that he will not step down until his term ends in 1981.

A source close to the government said a three-man international mediation team trying to find a negotiated solution already had asked him to resign. But the president denied the report.

In another development, about 200 students peacefully took over the administration buildings at the private Central American University campus in Managua yesterday to protest a government decision to cut off funds to the National University in Leon, 75 miles northwest of Managua.

The funds were withdrawn two weeks ago after Gen. Somoza said the civil uprising had dried up reserves. "We all have to pay for

Sabotage of 3 U.S. Generators May Cost Millions in Lost Power

DENVER, Nov. 10 — Three of the world's largest electrical generators have been sabotaged at Grand Coulee Dam, keystone of the Pacific Northwest's power system, in a series of incidents that could cost the federal government millions of dollars, authorities

The FBI confirmed that it was investigating the "willful damage" to the three 700-megawatt turbine-generators — each capable of meeting the electrical needs of a city the size of Portland, Ore. — at the \$500 million Bureau of Reclamation power plant project in eastern Washington state.

A government source said circumstances suggest that it was an inside job.

Robert Mueller, the project's construction engineer, said it appeared that "someone had intentionally gouged" into 19 of the nerators' coils over a period of several days, damaging at least half of them beyond repair.

Another project spokesman said an instrument such as a small crowbar or chisel apparently was used to inflict the damage. Each generator has a rotor 61-feet in diameter. The generators

have been described as the largest in the world. One had been in service for several weeks and was shut for maintenance when it was damaged. Another was due to go into service in December, and the third was to start operation next year.

Donald Duck, deputy assistant commissioner at the reclamation bureau's Denver Engineering Center, said it would cost about \$30,000 to replace each of the damaged coils, but he said the biggest expense would be the lost production of electricity.

Project officials calculated the cost of lost production at \$17,000 a day per generator. This means if one generator is out of commission for three months - as authorities estimated at least one would be — the cost would exceed \$1.5 million.

Thousands of Endangered Species Exported

Illegal Trade in Wild Animals Charged

MORGES, Switzerland, Nov. 10 (AP) — Huge numbers of endangered species of animals are being exported illegally to Europe and the United States, a worldwide con-servation group charged in a report published yesterday.

Gibbons, snakes, birds and baby chimpanzees are among hundreds of thousands of animals that are being sent from developing countries to the West, the International Union for Conservation of Nature and Natural Resources said in its monthly bulletin.

Exporting countries, the report noted, include Thailand, Panama and Sierra Leone. Among importers are the United States and Belgium, which the report describes as Europe's main center of illicit wildlife traffic.

The report adds that, once in Belgium, animals are freely traded with other members of the European community, many of which have signed and ratified the Convention on International Trade in Endangered Species of wild fauna and flo-

The convention came into force in 1975 and signatories include West Germany, Britain, the Netherlands and the United States. From Bangkok

The report says that much of the illegal traffic into Brussels comes from Bangkok, while huge numbers of baby chaimpanzees have been exported to the United States from

This traffic, the report says, has so depleted the country's own chimpanzee population that the an-imals are now being stolen from neighboring countries where such exports have long been forbidden under national law.

Argentine's Credibility Suffers

Videla Weakened by Chile Bluff

By Charles A. Krause

BUENOS AIRES, Nov. 10 (WP) — There is widespread relief here that Argentina has managed to get through its negotiations with Chile over land and sea rights near Cape Horn without going to war, but the comic-opera aspects of the affair have damaged the military govern-ment's credibility with the Argen-

No one here thinks that the govno one nere timits that the government of President Jorge Videla is about to fall. Yet there is a growing feeling that Gen. Videla may not last the three more years he has set for himself. He seized power in March, 1976.

A foreign banker, whose duties including monitoring the stability of Argentina's government, said that he does not believe Gen. Vide-la will last much more than a year.

"As a result, large U.S. and European banks are increasingly reluctant to lend money for the two-year minimum time period that the Argentine government now

requires," he said.

Newspapers and magazines here talk about "general confusion," as La Prensa put it, within the government. This confusion is as much because of an economic policy that will result in an inflation of as few islands and a part of the Atlantic and the negotiations with Chile.

Instead of issuing an early state.

ways - for European distribution, and the negotiations with Chile.
Instead of issuing an early statement about the Cabinet crisis or "This commerce, besides being sordid, cruel and immensely waste-ful — representing the destruction of at least 100 breeding groups — is certainly illegal," the report said. It revealed also that shortly after about the negotiations with Chile after their conclusion last week the huddled some more — without tell-ing what had happened or why. Ruthe incident, the secretariat of the convention, also based here, asked mors were the result.

Argentines were quick to conclude, even if it was not true, that Gen. Videla and his government had lost their way, leading to a feeling that eventually the military might have to find another president if it did not true to the control of the co the International Air Transport Asting regulations for the shipment of Although an air transportation association spokesman declined to confirm that it had contacted the dent if it did not want to lose pow-er altogether. Gen. Videla's strongest card, according to observers two airlines, a convention spokes-man said that he had received very here, is that there is as yet no one to replace hm. Also, he has retained his public image as an honest, even if increasingly weak, chief executhat they have issued instructions

Negotiatons Are Oversold

Gen. Videla's appearance of having been clumsy and weak in his handling of the negotiations with Chile resulted partly because they were oversold as being of such imadvantages for the country," he portance to the national honor that Argentina might have to go to war if the talks failed. The 40th anniversary of the death of Kemal Ataturk, the founder of

Last week, Argentina was holdmodern Turkey, was observed here ing air-raid drills in its principal cittoday. Flags hung at half-staff, and sirens and car horns blared in the ies and ostentatiously moving troops to border areas. The idea was to prepare Argentinians for a

possible war — and, more important, to convince Chile that it should compromise its territorial claims.

Meanwhile, Foreign Minister Oscar Montes had resigned after newspapers here reported that he would soon be replaced as part of the Cabinet shake-up — which had been planned for later this month, well after the negotiations with Chile had ended.

Mr. Montes' resignation was fol-lowed by the resignation of all but two of the other seven ministers, leaving the public here wondering how Gen. Videla could allow his Cabinet to dissolve only three days before the deadline for the negotia-

Gen. Videla then received more bad news. The head of his delegation to the territorial talks returned from Santiago that night, Oct. 30, saying there had been "a substantial change" in the Chilean bargaining position.

Chile Gets Tough

It appeared that the Chileans, convinced that the Argentina gov-ernment was in such disarray that its threats of war were empty, had decided to get tough just as the

more from the negotiations than they got: an invitation by Chile to take the dispute to the Internaional Court of Justice at The Hague or to government huddled, talked and a friendly country that could serve as a mediator.

Argentina rejected that proposi-tion, calling for a continuation of

the bilateral talks. Nonetheless, it began to seem that Chile — which has international law on its side in the dispute — had successfully called Argentina's bluff, contributing to the growing feeling here that Gen. Videla's government is weak, able neither to negotiate a favor-able settlement nor confront the Chileans once the negotiations

The confusion was further heightened when a spokesman for the Argentine Navy confirmed that the fleet was sailing south. Was this a decisive act by the government to seize some of the islands disputed by Chile or was it just another emp-

gesture? Few Argentines really knew.

Cambodia Cites Killings by U.S.

UNITED NATIONS, N.Y., Nov. 10 (AP) — Cambodia said yesterday that the United States was responsible for massacring more than one million Cambodians and destroying 80 percent of the country during the Vietnam War and was not entitled now to raise the issue of human rights there.

The statement was made in a let-ter to the president of the UN Security Council in response to a U.S. letter a week earlier to the same

Both letters dealt primarily with border fighting between Cambodia and Vietnam, but the United States started off with a brief reference to earlier objections to alleged massive abuse of human rights under Cambodia's Communist regime.

papers, books and cartons which, thinker, a writer and a clown, one assumes, contain his drawings,
— his "logograms," rather. The context is implausible, and hence suitable for a man who loves para-doxes as tenderly and violently as Douremont does.

'Interaction Writing'

He is a paradox himself: a poet who shows his writings in art gal-leries, and a painter whose illegible drawings are a text. But as he says, echoing German philosophy, life is in contradictions. Occasionally he refers to his work as "interaction writing" - a nod to Action Painting - implying that text and image interact in the viewer's mind.

In addition to his room at Pluie de Roses, he uses an attic studio that he runs to, he says, as soon as the itch to "logogrammatize" takes hold. The discipline surrounding his activity is mainly a delicate balance of the mind, in which he tries to avoid any preconceived idea of his text, so that word and gesture arise as a single movement. If for some reason a painting does not please him, he destroys it, and its

text perishes along with it.
Just as Chaplin had Charlie, or Marx had Goucho, so Dotremont

DETROIT, Nov. 10 (UPI) - Brian Weisberg's whole life was a losing race against death. But along the way he stopped and summoned his dwindling strength to take thou-

sands of pictures.

Weisberg, 25, died last July of congenital heart disease. "Brian was born with an enlarged heart, twisted and on the wrong side of his chest," says his twin brother Jeff. "He was marked for death."

But at least Brian had the comfort of knowing his work was scheduled to be shown publically, and this week the Detroit Public Library mounted an exhibition of

gist and a photographer. Depend-ing on the assignment, other spe-cialists may join them. It may be an 39 of his photographs. Calling his brother's work "in-trospective and beautiful," Jeff archaeologist specializing in terra-cotta, an art historian whose specifeels they reflect Brian's "indescribable courage. He always knew he was dying but he never talked about death. He believed in life." ality is a particular period or a physicist with an interest in ceramics or The show will run through Nov. 29. stained glass.

The Art Market The Rediscovery Of Chippendale

By Souren Melikian

ONDON, Nov. 10 (IHT) -The latest form of competition between auction houses is publishing, and Christie's, which had hitherto ignored this field, has just scored a brilliant premiere.

To inaugurate a series of art books that it is launching jointly with Studio Vista, Christie's has chosen to bring out a two-volume work by Christopher Gilbert dealing with Britain's most famous furniture designer, Thomas Chippendale (1718-1779).

It is a daring move. On the face of it, a monumental study on a cabinetmaker looks dangerously like a non-event. Possibly hedging against such an impression. Christie's took the unusual step of stag-ing a five-day mini-exhibition of Chippendale's work, starting today. The 12 pieces can also be viewed at their premises at 8 King Street, Monday through Thursday.

Special Pieces

Still, they are special pieces - all fully documented — that have come down to us with the orders. letters and receipts concerning their

Lent by the Marquess of Bure is a mahogony card table designed in 1759 for the Blue Drawing Room at Dumfries House in Ayrshire. It is of rococo design derived from the Louis XV period and modified by the English vision — less subtle according to the English experts, but vigorous, and illustrating the designer's early phase, for which he

is most famous. In contrast, a marquetry table with curving front and scrolling designs inspired from Roman antiquity illustrates the lesser known al-though equally important side of Chippendale's creativity (as Gilbert has now demonstrated) — his Neo-Classical strain. In this case, there is no invoice accompanying the piece, but there is a precise descrip-tion of it in an 1795 inventory of the Circular Dressing Room of Harewood House in Yorkshire for which Chippendale supplied it. Its survival is a miracle — and a recent

The table was dispatched to an attic in Victorian times, when the dressing-room recess it fitted into was swept away in the course of remodeling. It emerged in rumous condition at a 1976 Christie's sale, where it was bought for £8,000 by the Chippendale Society. It took two years to restore it — including the removal of a nasty 19th-century paint job that concealed its original pink-and-white japanned frame around splendid engraved marquetry. It is now on exhibit for the first time.

Rediscovery

For, surprising as it may sound, the work of Britain's towering 18th servicing. century designer is literally being rediscovered. It is put in an entirely

a few tantalizing insights. The biggest stride forward was made possible by Gilbert's unearthing of many documents relating to Thomas Chippendale's furniture; they provide positive identification

works. Gilbert points out that in 1903-4, R.S. Clouton, a furniture specialist, contributed a series of seven articles on Chippendale to the art monthly The Commisseur "without being able to name a single accredited patron or identify
any furniture now accepted as
authentic." Twenty years later,
Oliver Brackers wrote his classic
monograph that established the identity of 14 customers. In 1968 Antony Coleridge, one of Christie's directors and an internationally recognized expert on 18th-century English furningle, recorded another 12 in a book modestly called "Chippendale Furniture."

Added 39 Names

But Gilbert has added no less than 39 names. While the furniture has disappeared in many cases. "26 commissions remain where relevant items have either passed by descent to the present owner or can still be traced in public or private collec-tions. Thus, a very impressive body of documented furniture survives. amounting to 700 pieces — subified from any other workshop."

Chippendale emerges from Gilbert's impressive and probably definitive work as a man of flesh and blood - a man whose works can at last be pinned down.

Gilbert applied such methods as set the searching London and provincial settled. newspapers for notices referring to will

the firm's activities and systematically sifting the firm's business leters, bills and memoranda. He also had some fluke luck. "Perhaps the most amazing stroke of anythin good fortune was opening the Sunday Times color supplement on 1 across to August 1975 to be confronted by a selecture of H.R.H. the Queen Mother seated on a gilt armchair corresponding precisely to one of an and Chippendale's standard early Neo-Classical patterns which subsc at the quently provided confirmation that the received a royal commission. That armchair, one of eight made and around 1773 in a surprising style challe resembling that of the yet-to-be at this crowned French Louis XVL bears an and

CONTROLLER TEHRAN — IRAN

A leading engineering firm providing engineering and construction services on a world-wide basis seeks a Controller for its subsidiary in Tehran. As the chief accounting officer, The Controller reports directly to the Managing

Director in Tehran with additional responsibilities to the International Controller in The Netherlands.

Duties and Responsibilities:

• Management of an accounting department of ten people; establishment of company accounting procedures; control of the management information

 Formulating financial plans and evaluating performance: capital expenditure budgeting, income and expense budgeting, establishing cost standards, assay of bid estimates, economic appraisal.

Other specific functions: Tax administration, statutory corporate legal requirements, banking and

custody of corporate assets, administration of corporate insurance requirements, involvement with writing-up of Farsi books, preparation of special reports, coordination with auditors for annual or other audit requirements.

Candidate Profile:

Nationality U.S. or Continental European with preference to Dutch;

Age open, ideally around 34 or over 50;

• Marital status: preference for single person, married people not excluded;

Fluent written and spoken English;

Solid accounting credentials, SPD I & II or equivalent;

 Related financial experience with an international company desirable. In addition to technical competence, candidates should have drive, commercial acumen and people skills. There are excellent opportunities for growth and advancement.

The salary will reflect the background and experience of the candidate.

If you are interested in this post, please send a resume and salary requirements to:

William Greenway, Partner, Avenue Louise 523, Btc. 30,

B-1050 Brussels, Belgium, Reference IHT NE I. FULL CONFIDENCE AND DISCRETION ASSURED.

The Nudes of Bernadette Kelly

Paris

Bernadette Kelly, Galcrie le Bateau Lavoir, 16 Rue de Seine, Paris 6,

A real painter is always a surprise, partly because it is such a rare thing, and partly because one can sense in such a painter's works the disproportion between means used and results obtained Berna-dette Kelly paints nudes, always women, and still lifes, in a space and light that are astonishingly per-suasive. How on earth can she bring it off, one wonders, and one's surprise is echoed in the charming expression of Jean Chairs, catalog expression of Jean Clair's catalog text: "Sans doute faut-il, comme on dit, ne douter de rien," he writes in a positive sense, one must no doubt be full of a sort of candid unawareness and pure confidence in order to paint as this young woman does. Kelly's talent is not the brilliant kind that imposes even its faults thanks to a sort of superior chutzpah, rather it charms and persuades by its sheer rightness, and by the authentic mood she conjures up through flesh and time and light and space.

Dodeigne, Galerie Jean Leroy, 37 Rue Quincampoix, Paris 3, to Dec. 9.

Dodeigne sculptures were the highlight of the recent FIAC, and the gallery that presented them there has arranged an exhibition of them on its own premises. What was said about Dodeigne's work in these columns during the FIAC applies equally to this show: His huge stone mourners still stand like distraught menhirs, still strike as manifestations of sentiments in the depths of the stone itself. There are also a couple of female nudes of equal quality, in which the inner tenderness of the flesh is admirably expressed.

Fer Blanc and Fil de Fer, Plateau Beaubourg, Paris 4, to Dec. 4. Seventy tons of railway cars stranded on 50 meters of track just in front of Beaubourg are the showrooms of an exhibition, conceived by the Children's Workshop at Beaubourg, that will subsequently tour towns and villages of France.
Inside is the first display of what can be described as "tanake," Ara-" nic for any object made out of dis-- rarded tin cans or steel drums. The word originated in World War II with the carcasses of tanks the Africa Korps and the Allies left strewn hrough North African deserts. But anake is a far wider phenomenon evealing a resourcefulness bred of extreme poverty. More than 200 tems from all over the world are issembled here, including a selec-ion of tin-can sculptures by Ro-and Roure, a former French farmer who used to sell them on market days and who four years 1go began devoting himself to his rraft fulltime. The show is designed o appeal to children in a mildly dilactic way. There are slide projecions and a team of young people who are there to talk matters over

with young visitors.

Authentic feather and basketvare of the Amazon basin. The eather fineries are often of great ielicacy. The gallery also has a national galleries, and this exhibition continues the necessary procome a clearinghouse for all things cess of rediscovery. elevant to the subject in France.

François Lalanne, Galerie la Hune, 14 Rue de l'Abbaye, Paris 6, to Nov. 30.

François Lalanne and his wife ire both well known for their comorphic furniture. The show is levoted to the husband, showing prints - sometimes heightened with watercolor — that are typical of his special form of fantasy. The chateau on the hill is a rhinoceros, the fire destroying that house is a iger, the land takes on human and animal forms in a clever and amusing graphic style.

— MICHAEL GIBSON.

London

Bernard Meninsky 1891/1950, Belgrave Gallery, 17 Motcomb Street, London S.W.1. to Nov. 24. Meninsky was often sick and often sad, a lonely person beset by doubts about the quality of his work. He need not have been, for

Rothko Emerges From the Litigation

By Alexandra Anderson and B. J. Archer

NEW YORK, Nov. 10 (IHT) -The suicide of Mark Rothko in 1970 deprived the world of one of America's great Abstract Ex-pressionist painters. It also led to what some have called the art

world's "Watergate."
Approximately 800 works in the artist's estate became the subject of a bitter lawsuit instituted by the state attorney general on behalf of his children and the Rothko Foundation against three executors of the estate and the Marlborough Gallery. The paintings, left to a

On the

Arts Agenda A program of contemporary mu-

sical theater will be presented Nov. 16. 17 and 18 at the Opera Comique in a co-production by the Paris Opera and the Ensemble InterCon-temporain. The program includes the first staged performances of Claude Prey's "Mots Croises" (Crosswords) and the French prem-(Crosswords) and the French premiere of a "triptych" of works by Alexander Goehr — "Naboth's Vineyard," "Shadow Play" and "Sonata About Jerusalem." Lucas Vis will conduct, Jean-Marie Simon will direct and Georges Lafaye will handle see and continue. handle sets and costumes.

Lorin Maazel, the principal guest conductor of the Orchestre National de France, will make his first appearances with the orchestra this season starting Nov. 21 at Paris' Salle Pleyel with a Prokoliev-Rachmaninov program, pianist Horacio Gutierrez making his Paris debut in Rachmaninov's Third Concerto. Maazel will be at the Theatre des Champs-Elysees Nov. 25 in a continuation of the Beethoven series with the Second and Sixth symphonies, and at the church of St. Louis des Invalides Nov. 29, marking the 70th birthday of Olivier Messiaen with a performance of the composer's "La Trans-

Gallery. The case was eventually decided in favor of the plaintiffs. Lee Selde's book "The Legacy of Mark Rothko" exhaustively re-counts the greed and deceit of

those years — as the art world's dirty linen went through the wash cycle in public and the paintings in question remained sequestered. But now the Guggenheim Museum has mounted the first major Rothko exhibition in years - and the most comprehensive retrospective of his paintings ever organized. The show will run until Jan. 14 before traveling to Houston, Minneapolis and Los Angeles.

From the Beginning It traces the painter's career from

its beginnings and stunningly demonstrates the emergence of Roth-ko's mature style. Struggling through the '40s, Rothko slowly cast off Cubist and Surrealist-as-similated imagery and found his similated imagery and found his way to pictures of pure color harmonies. These luminous landscapes of the spirit, in which rectangles of color float atmospherically, became increasingly brooding and dark as the artist grew older and more disillusioned. In achieving the success he sought, Rothko germinated the seeds of despair that eventually destroved him. But he left an undeniably great body of work. The im-pact of Rothko's rendering of human emotion into transcendent art is enormous.

The exhibition is exceptionally well chosen and paced by curator
Diane Waldman, whose catalog
provides a fine critical essay. More

never look at a painting of mine."

So it falls to Glimcher to overse
the disposition of these and the 70 than half the paintings in the show are on loan from the estate.

Along with the resurrection of Mark Rothko comes the further elevation of Arnold Glimcher. The 40-year-old director of the Pace Gallery (he made his initial splash dealing in European art in Boston, during the Vasarely high, then with Dubuffet here) is the current big buzz in local salons.

A consummate art marketer. Glimcher has attracted to Pace

foundation set up by the artist's works by prize painters both living will, were claimed to have been negligently relinquished in a questionable deal with the Marlborough Brice Marden have been signed; Pace also represents Agnes Martin, Louise Nevelson, Lucas Sammaras, Jean Dubuffet and the estates of Mondrian, Ad Reinhardt — and Rothko.

nation with murder.

Although the same old joke -

ONDON, Nov. 10 (1HT) -"Who cares who killed Roger Ackroyd?" asked Edmund Wilson,

Concurrent with the Guggenheim opening. Pace unveiled a series of Rothko murals never before on public display. When he execut-ed them following a trip to Italy, Rothko said, "I was very much in-fluenced by Michelangelo's walls in the staircase of the Medicean Library in Florence. He achieved the kind of feeling I'm after - he makes the viewers feel that they are trapped in a room where all the doors and windows are bricked

These beautiful canvases — geometric shapes against soft, reddishbrown backgrounds — are in-scribed with open, ragged-edge rec-tangles, mostly in vibrant oranges. They are pivotal works, falling between the ephemeral veils of expanding color that dominate the previous decade's output, and the profoundly moving paintings for Houston's de Menil Chapel and final visions of doom of the late '60s.

The murals had been intended for the Four Seasons Restaurant, but according to Dan Rice, then a Rothko assistant, the artist

changed his mind after dining there: "Anybody who will eat that kind of food for those prices will So it falls to Glimcher to oversee remaining works in the Rothko estate — in conjunction with Roth-

ko's children and the new trustees of the foundation. Collectors and museums seem anxious to buy after the long hiatus. Pace has concluded several sales said to be around \$200,000 each. and the masterworks in Glimcher's hands will probably fetch even

more. At the Guggenheim opening for lenders and museum associates, Glimcher - in satin dinner jacket and white silk scarf - said he was feeling "pretty happy."

Murders, Deadly and Otherwise real murder that led Terence Rattigan to write "Cause Celebre," but Gray ignores the courtroom drama and isn't as much concerned with the murder itself as he is with the

the murder itself as he is with the people involved: Molly, a bored, hard-drinking wife who seduces a young and simple handyman; the boy himself, youthfully possesive, who kills Molly's aging and impotent husband in a fit of jealousy; and the housekeeper, full of pentup feelings, trembling on the edge of passion. of passion.

The play hasn't the complexity

Theater in London

cess "Deathtrap" at the Garrick.
Death retains its sting, and violent
death its fascination, as evidenced
also by Simon Gray's "Molly" at
the Comedy and David Freeman's The play hasn't the complexity of Gray's best work, although, like "The Rear Column," it deals with an isolated group of people — exiles from their own emotions. Its characters are all adolescent in their attitudes. The husband, cut off from the world by dealness, is Jesse and the Bandit Queen" at about an apparently supernatural knowledge of the weather that regiven to childish tantrums, and his physical relationship with Molly is limited to spanking her for smok-ing too much. The housekeeper behaves like a girl with a crush on the gym mistress. Molly herself results from listening to the radio forecast — turns up in both Levin's and Gray's plays, the two have nothing in common but their fascisorts to baby talk to get her own Gray is interested in humanity, way. The boy's murder of the old man is, in a way, the most mature what ways and what small matters a man can be led to kill anoth-

what raises the play above the ordinary is the quality of the acting, notably Billie Whitelaw's Moler. For Levin, death is the final titillation, a means of making an audience's flesh creep and nothing ly — desperate to be needed, seeking love and finding only passion — and Barbara Atkinson's primly flirtatious housekeeper. T.P. McKenna, as the increasingly and Anthony Allen "Molly," adapted from a television play, has its basis in the same gry husband, and Anthony Allen, as the boy, also give fine perfor-mances, and Stephen Hollis' direction makes the most of the play's

Games-Playing

emotional climaxes.

Levin's "Deathtrap" is a gamesplaying thriller that resembles "Sleuth" rewritten by a combination of Luigi Pirandello and George S. Kaufman. It plays clever tricks with theatrical illusion and reality — is that "real" blood oozing from the corpse, or just tomato catsup? — and is full of wisecracks about Broadway.

Its plot, about a murderous

writer and his protege who is writing a play about a murderous thriller writer and his protege, is impossibly complex, although the form enables the hero to give the audience a running synopsis of what has just happened and what is about to happen.

It is one of those plays where the

audience applauds not the scenery but the murders and each one is calculated to shock and surprise. The debt here is to Hitchcock's "Pyscho," although with Levin you can never be sure whether his corpses will stay dead or not. The sheer arrogance of Levin's

approach — he announces, in the first words of the play, that we are going to see a one-set, five-charac-

ter money-maker, with a gory murder in the first act — is admirable. even if his play is not, for he de-livers exactly what he promises.

Yet the more ingenuity and cleverness he displays, the more he emphasizes the essential sterility of the exercise; his cynicism is contagious. The result, glossily staged and acted with ingratiating charm, is heartless, uncaring and pointless entertainment,

At the Round House, David Freeman is overcome by the glamor of Jesse James and Belle Starr the glamor seeming to exist for him in their ability to murder without regret. The couple deliver their bi-ographies jointly, helping each other act out their lives and their fantasies of sexual change.

But their precise knowledge of their historical and mythic significance gives the two a portentous self-knowledge that robs the play of any theatricality. Andrew Harmon's production is impressively dull, squashing any attempt at bravura acting from Annabel Leventon and Vincent Marzello. and reducing a heetic story to a steady monotone. * * *

At the Prince of Wales, the National Theater's production of Alan Ayckbourn's "Bedroom Farce" has opened for an 11-week season before going on to Broadway. The theater, with its central focus, is not ideal for a play where the action shifts from one side of the stage to the other, but it remains a hilarious examination of British bedroom customs: Activities range from munching on pilchards on toast to building a dressing table, but avoid anything to do with sex.

A few of the performances have an intensity that lack comic style the marital rows that punctuate the action in the three onstage bedrooms are enough to precipitate murder in any other sort of play— but Stephen Moore has refined the pivotal role of Trevor into a marvellously amorphous comic creation, less a person than an animated overcont, a drifting disaster area. Derek Newark's do-it-yourself expert is as keenly and humorously observed. Their final confrontation at the climax — with everything dependent on physical gestures rather than words - is one of the great moments of comedy.

Michael Hastings' amusing "Gloo Joo." about a West Indian's increasingly frantic efforts to avoid deportation, has transferred from the Hampstead Theater to the Cri-

Trade Talks Remain at Impasse

BRUSSELS, Nov. 10 (NYT) — The five-year-old trade-freeing negotiations between the United States and other Western industrial

nations going on in Geneva remained engulfed in a congressionally induced political crisis today after chief U.S. trade negotiator Robert Strauss failed to persuade Western Furgosan negotiators to Western European negotiators to bring the talks to conclusion. As a result, European sources here predict that it will probably be impossible to bring this so-called Tokyo Round of negotiations to a successful conclusion next month, as President Carter and other Western leaders agreed at their Bonn sum-

mit meeting in July and as the United States still wants. Instead, the chances are that the talks will now drag on into February or The latest crisis to hit the Tokyo Round was caused by the failure of the outgoing U.S. Congress to extend President Carter's authority to waive imposition of countervailing duties on subsidized foreign im-ports before it recessed last month. As a result, President Carter will

Little Headway

At worst, imposition of these du-ties could wreck the entire Tokyo Round negotiations by provoking Europe to retaliate and plunging the Western industrial countries into a new trade war. Already France has proposed suspending the Geneva negotiations altogether in protest against Congress' beha-viour. But last night EEC Commis-sion president Roy Jenkins told Mr. Strauss that West Europe is sticking to its previously an-nounced refusal to conclude the Tokyo Round until the new Con-

Turkey, IMF Loan Talks Seen Crucial to Nation

ANKARA, Nov. 10 (AP-DJ) -Turkey enters a crucial round of negotiations with the International Monetary Fund this month in search of a \$60-million loan that could serve as a "seal of approval" for the nation's austerity program.

However, the IMF is reportedly dissatisfied with the nation's performance. The austerity program had envisioned, among other things, a reduction in Turkey's inflation rate in 1978 to 20 percent, compared with 1977's 50-percent pace. Instead, many economists fear the rate this year could soar as high as 70 percent.

Moreover, the IMF would like Turkey to further curb wages and consumption, increase taxes, and act to boost its exports, thus trimming its deficit on balance of payments, according to a group of Turkish businessmen and industrialists who visited the United States last month.

Official sources said the upcoming talks will focus on release of the third installment of a \$450-million stand-by credit granted by the IMF last March — arranged only after Turkey had pledged to enact the belt-tightening measures. While the \$60-million loan itself

is only a drop in the bucket when compared to Turkey's present hardcurrency squeeze and foreign debts of about \$15 billion — nearly half of which are overdue — Turkish of-ficials believe that the loan would help restore the nation's badly damaged credit rating. The act of faith is needed to help the country in current effort to reschedule \$2.9 billion owed to Western commer-

Italy Prices, Output **Post Monthly Gains**

ROME, Nov. 10 (AP-DJ) Italy's index of consumer prices in October rose 1.1 percent from September and was up 12.3 percent from the like period of 1977, the statistics institute reported today. The index registered 137.3 in october, compared to 135.8 in September and 122.3 in October 1977. The index, which is based on 1976 equals 100, is not seasonally adjusted.
The institute also said the unadjusted index of industrial production rose 1.9 percent in September,

Dutch Price Index Up

THE HAGUE, Nov. 10 (AP-DJ)— The Netherlands' consumer price index rose 0.2 percent to 122.6 in mid-October from 122.3 a month earlier, the Ministry of Economic Affairs said today.

Renault, GM Studying Engine Deal Renault Vehicules Industriels and General Motors are reportedly looking into the possibility of a joint venture for the production of diesel engines for trucks. The talks involve 6-cylinder, 150-200-horse-power engines, sources say. Meanwhile, in Pennsylvania, John Curcio, executive vice president of Mack Truck Inc.'s international division, says he expects to reach an accord with Renault prior to Christmas covering the sale of medium-size Renault trucks through Mockie distribution according to United through Mack's distribution network in the United States and Canada.

Dart in Takeover Bid for Mallory

Dart Industries says it is planning an offer of \$46 a share, or \$223 million in cash, for P.R. Mallory.

Getty Gets Manila Uranium Permit

The Philippines' first uranium exploration permit has been granted to a joint project of Getty Mining Inc, a subsidiary of Getty Oil, and Benguet Consolidated, the energy ministry says. The one-year permit from Nov. 8 will enable Getty and Benguet to conduct airborne radiometric, ground scintillometer and track-etch surveys over 250,000 hectares in the Larap-Paracale area of Camarines Norte. 125 miles ast of Manila.

Teijin Expects Rise in Profits

Teijin Ltd. says it expects taxed profit in the year ending March 31 to be more than 2 billion yen (about \$10.6 million), up from 404 million yen last year, on sales of about 332 billion yen, against the previous year's 346.15 billion yen. The sharp improvement will result from its efforts to cut production costs by reducing the number of employees. tion costs by reducing the number of employees, a recovery of the domestic textile market and a decline in imported raw materials prices, it says.

Bankers Trust Weighs Sale of Branches

FINANCIAL NEWS AND NOTES

of pressure in recent years on the profitability of consumer banking throughout the U.S. banking indus-Injection of Capital

For Bankers Trust, the sale would represent an injection of much-needed capital. Like many other U.S. banks, during the 1974 recession, Bankers Trust amassed heavy losses on loans, and many other loans have become problems. either failing to pay interest or pay-ing it at reduced rates.

Analysts said Bankers Trust has made some progress over the past few years but that it still has a long way to go to bring its capital ratios to more comfortable levels. Bank of Montreal, which has to-tal assets of about \$26 billion, has a

najor consumer banking operation encompassing more than 1,200 branches in Canada. It also has operations in 20 other countries, including the United States.

The acquisition probably would be carried out by Bank of Montreal's New York-based unit, Bank of

Bonn Rejects Schmidt Plan To Lower Taxes

BONN, Nov. 10 (AP-DJ) - The upper house of the West German parliament rejected for the second time today the tax-cut package that is the centerpiece of Chancellor Helmut Schmidt's stimulus pledge made at the economic summit in

The action by the Bundesrat means the 14-billion Deutsche mark tax-cut bill must go back to a joint legislative conference committee. It was announced that the committee, made up of representatives from the Bundesrat and lower house, Bundestag, would meet Thursday in an attempt to work out a compromise allowing the bill to go into effect on schedule Jan. 1. Mr. Schmidt issued a statement after the vote expressing his "full hope" that the tax bill would be ap-

proved by the end of the year. Last month the Bundesrat sent the package to the conference committee but it failed to reach a compromise and referred the same bill back to the upper house.

Vauxhall Offer Accepted LONDON, Nov. 10 (AP-DJ) -About 3,000 production workers at Vauxhall Motors Ltd.'s Ellesmere Port plant have voted to accept the company's 8.5-percent wage offer. The vote was taken at a mass meeting. A similar meeting of 4,500 en-gineering workers will take place

growing eagerness of U.S. banks to reduce their emphasis on retail

William Mulholland said.

Bankers Trust said both it and Bank of Montreal "have operated on the basis that Bank of Montreal would acquire the customers, staff and physical facilities" of Bankers Trust's New York retail branch and installment loan operations. If such an agreement is reached, both banks "would be committed to provide an orderly transfer of person-nel so as to minimize any risk to job security or inconvenience." Bankers Trust said. Bankers Trust said the assets re-

lating to the 89 retail branches and the installment-loan business total about \$1 billion, or about 4 percent of the \$25.4 billion in assets of Bankers Trust New York. The credit card operation of Bankers Trust Corp. has assets of about \$400 million, the bank said. A bank spokesman emphasized that the purchase price "hasn't been settled

NYSE Prices Higher With Pause in Rates

NEW YORK, Nov. 10 (AP-DJ) - A pause in the rapid rise in interest rates pushed prices on the New York Stock Exchange higher today but trading was the slowest in four

The Dow Jones industrial average rose 3.12 points to 807.09. Advances led declines 944 to 465 and volume fell to 16.75 million shares from yesterday's 23.56 million. The New York Federal Reserve

Bank entered the government secu-rities market to drain reserves through weekend matched sales pacts, with Fed funds trading at 9h percent, dealers said. They said the intervention confirms the Fed's target is 9% to 9% percent. Before the Fed's move to make weekend matched sales pacts, there had been confusion in the market as to the target. Dealers said today's fund rate drop to as low as 9 9/16 per-cent should not be regarded as

cent should not be regarded as change in Fed policy since today many banks are closed for Veteran's Day.

McKee Corp. topped the active list, adding 3% to 32½. Davy Corp., of London, began its bid for McKee at \$33 a share. Bankers Trust Corp., which is considering selling some branches to Bank of Montreal, rose % to 34%. Montreal, rose % to 34%.

Sterndent gained ¾ to 20 before a trading halt pending a news announcement. Later, Cooper Lab-oratories said it held 14.4 percent od Sterndent common as of Wednesday. Cooper eased is to

General Motors, in second place added 1/2 to 56%, ex-dividend. Chrysler lost 1/4 to 10%. It is reported considering its majority stake in Chrysler Colmotores of Colombia

Coastal States Gas rose % to 16%. Its third-quarter net fell but holders approved the spinoff of its Lo Vaca unit and directors authorized participation in a new pipeline to bring Rocky Mountain gas to the East Coast. Among the oils, Exxon added 1/2 to 49%, Texaco 1/4 to 23% and Gulf

Prices on the American Stock Exchange also rose, with the mar-ket-value index up 1.32 to 143.39. In Chicago, wheat was irregular-ly higher, corn mixed, oats higher and soybeans substantially higher at the close on the Board of Trade. Wheat was up 2 to 6 cents, corn up 15 to off 4; oats up 2 to 134 and soybeans up 10 to 1644 cents.

The record harvest in soybeans and corn projected yesterday by the Department of Agriculture was close to industry estimates. But beans rallied behind a bullish industry crush report and in reaction to earlier export business with Chi-

Corn futures also found support on continued export interest with the only decline coming in distant

Fed Official Is 'Unedified' by Others' Gripes

NEW YORK, Nov. 10 (NYT) Only rarely do those belonging to the elite club of world central bankers stoop to criticizing each other in public, but Paul Volcker found himself un-

able to resist yesterday.

"There is something unedifying," the president of the New York Federal Reserve said in Coventry, England, "about some central banks taking full advantage of the fleribility of advantage of the flexibility afforded by present arrangements to place their funds where and when they choose while complaining at the same time about

instability in the system."

He said the new support package can relieve market pressures, but that if the dollar problem is, as he suggests, "structural," then other countries must help the United States to solve it.

Economic News Analysis

Energy Bill's Impact on Inflation Minor division. None of the experts inter-

Anthony J. Parisi

NEW YORK, Nov. 10 (NYT)-One of the chief concerns voiced over the original energy package proposed by President Carter a year and a half ago was its poten-tial impact on the inflation rate, which at that time was hovering

just above 5 percent.
Today, the rate is in the 8-percent range. So, although the legisla-tion President Carter signed yester-day is just a shadow of its uncompromised self, the question remains as pressing today as it was then: / much will t islation exacerbate inflation?`

The short answer, the experts say, is very little. "Not much at all," insisted David Behling, a vice president and economist in Chase Manhattan Bank's energy ecnomics

viewed maintained that the steep rise in energy prices seen over the last five years is about to abate. Rather, they argued that the new legislation would not significantly add to the rate at which prices have all along been increasing.

All said that, from a macroeconomic standpoint, there was never much to worry about in the first place, mostly because the various taxing provisions in the original en-ergy package were designed to can-cel out its various spending provi-

Arrangement Missing

Although that tit-for-tat arrangement is missing in the final package, they pointed out, so are most of the provisions that would have raised energy prices anew. "We originally estimated that the package would take off 0.1 percentage points from the real growth rate each year and add maybe onefourth of a percentage point to the inflation rate," said Edward Hudson, an economist with Data Resources Inc., an economics consulting concern well known for its en-

"Since the final version is weaker, those numbers now become ceil-ings at the worst." Dr. Hudson cautioned, however, that this sanguine overview may gloss over some problems here and there. Companies still dependent on oil and gas for boiler fuel, for example, may find the requirement to convert to coal especially expensive; operating costs in their businesses may thus rise faster than average, resulting in inflationary hot spots. And companies that use gas as a raw material, such as manufacturers of fertilizers

ergy analyses.

and petrochemicals, will find higher gas prices particularly painful.

At a glance, the higher gas prices mandated by the energy bill would seem the worst inflationary culprit. But most of the economists said this may not be true. Gas prices. which have risen sharply in recent years, would presumably have con-tinued to climb under the informal regulatory approach that the gas bill now replaces, these experts pointed out. The new legislation may thus prove no worse than the recent trend. In some of the prothe legislation actually lowers pric-

Moreover, if the higher gas prices laid out in the bill actually result in more gas, as the administration claims, these additional supplies would allow some users to avoid costly switchovers to other fuels. That would help compensate for the more expensive gas.

In addition, any extra gas that comes to market because of the new law would reduce oil imports. "Look at it this way," commented Robert Pindyck; an economist with the Massachusetts Institute of Technology's Sloan School:"Not passing the bill, not raising prices, has the effect of increasing imports. That contributes to the trade deficit. And that contributes to infla-

"We expect energy prices to be inflating about 10 percent a year overall," summed up Ronald Whit-field, director of Data Resource's energy services. "Carter's bill will make a very modest contribution to that figure — less than one half of one percent."

Securities as Dollar Aid

ZURICH, Nov. 10 (AP-DJ) — U.S. Treasury officials and the Swiss National Bank have held exploratory talks on U.S. plans to place Swiss-franc denominated securities as part of the dollar sup-

port program.
A spokesman for the Swiss central bank said today that further talks would be held in the near future, but he said a schedule was not yet known. Presumably, the U.S. officials were advised of the conditions of the Swiss capital market and will now go back to the United States to weigh their findings both in Switzerland and West Germany, which the team visited earlier this week.

As part of the administration's dollar-defense measures, U.S. officials said last week that the United States "will" sell up to \$10 billion in the new type of securities to private investors in other countries.

Separately, U.S. Treasury under-

thony Solomon said in Washington he could not predict how soon the Treasury would begin offering bonds denominated in foreign cur-

rencies to investors abroad.

It is not yet clear whether the Treasury would require payments of U.S. withholding taxes on the infection of the complete the securities. terest received on these securities by investors abroad. Among other things, the Treasury will have to de-cide after the consultations with monetary authorities abroad how big the first issue of the new type bond should be.

Separately, Bundesbank president Otmar Emminger said today that in preliminary talks thus far U.S. authorities have said they would like to have a relatively short maturity for so-called "Carter bonds" of about four years. He said he realized that the bonds could present some difficulties for the secretary for monetary policy An-mind during the planning phase.

INVESTMENT.Frankfur

HERE are two first-rate novels by two young writers who over the past few years have been I won't tell you what this genre is, or how it helps to bring about the novel's terrifying ending. It's enough to say that by mixing the two forms, as if he were combining steadily improving upon themhydrogen and oxygen, and igniting them with the spark of his talent, he has produced an extremely nasty You can never tell what William Hjortsberg will pull next, except them with that it's bound to be a parody of past fictional forms and good fun in his second novel, "Gray

Habits of Urban Youth

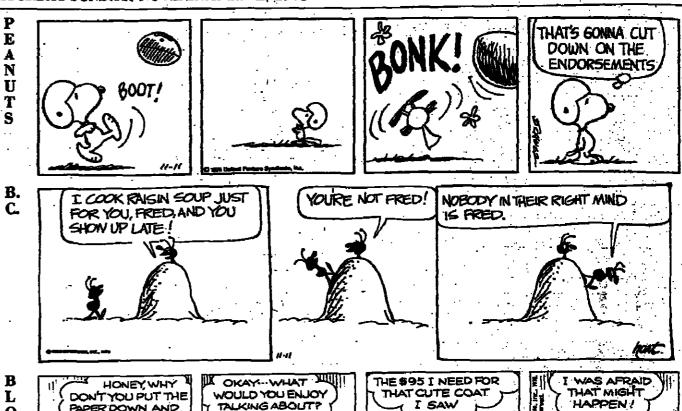

Richard Price was born in 1949 tale about a disembodied brain that gets loose from a 25th-century brain depository and wreaks disaster, while in his fourth novel, "Toro! Toro! Toro!," he gored Hemingsyay's buildighting scene and spent his first 18 years in a Bronx housing project, and, as any-one can attest who has read his first two novels, "The Wanderers" (1974) and "Bloodbrothers" (published in 1976 and recently released as a movie), he knows the language, mores, herding instincts and hunt-ing habits of the bottom-class ur-Angel," Hijortsberg seems at first to be satirizing Raymond Chandler and the tough-gny private eye. "It was Friday the thirteenth (of March, 1959) and yesterday's snowstorm in general in the streets. ban young just about as well as Margaret Mead got to know those who come of age in Samoa.

In his latest novel, "Ladies" Man," Price takes one of these youths, at the age of 30, isolates him in a box of a West Side Manhattan studio apartment, gives him a job as a door-to-door salesman of household sprays and watches him spend a week going crazy.

What keeps us reading "Ladies' Man" is not the pain of Kenny Becker's experience, but Price's inand Spy calling.' I grunted some-thing pleasant and she put me on hold." ventiveness as a storyteller and the absolute authenticity of the people he creates. Wherever his scenes are set - in bars for singles, homosexuals or aspiring amateur entertain-ers; in Greenwich Village apart-ments where the women invite The only trouble is, one gets in-trigued with why Herman Winesap is calling Harry Angel. In fact, one gets downright riveted, as Harry is hired by Winesap's wealthy client, salesmen in for sexual entertainment; or in Times Square area mashired by Winesap's wealthy client, sage pariors so antiseptic that Eros Louis Cyphre, to locate a popular crooner from the 1930s named ters keep popping off the page so Johnny Favorite, who seems to alive we feel crowded by their de-Johnny Favorite, who seems to have disappeared off the face of the mands for attention.

Still, Kenny's pain is palpable: his paradoxical fear of intimacy when he is close to someone and terror of isolation when he is alone. And because Price doesn't condescend to his characters — because he depicts with nearly naive credu-lity their pathetic nostalgia for ado-lescent bonding and their simplistic conviction that release from loneliness must lie in some ultimate sexual orgasm - their suffering transcends their narrow circumstances. "Falling Angel," we have to keep in mind that Hjortsberg, for some reason, is trying to hold us at arm's because he wants to steer clear of it, but the fact is that Kenny is in pain because he wants to stay alive and not fall into the deadness of the singular transfer identification. tently kidding Angel's tough-guy gles scene. Who can resist identify-ambience. ("Outside dawn ing with that? smudged the night sky like rouge on a chorus girl's cheek.") Why is

Selections Permitted Under Player-Owner Pact

U.S. Court Upholds Ruling That NFL Draft Is Illegal

two years ago, was illegal.

The three-member court, with one dissent in part, upheld the the 1976 decision of U.S. District Court Judge William Bryant but re-

case to the lower court for a further computation of damages to be paid athlete will be allocated to one to Smith, who contended in his team, and that no other team will 1970 suit against the Redskins and deal with that person."

WASHINGTON. Nov. 10 (AP)

— The U.S. Court of Appeals ruled damages to James Smith, a former defensive back with the Washingball League draft of college players, ball League draft of college players.

The appellate court returned the marketing of his 1976 decision, Bryant said that the essence of the draft is an agreement among team owners "that the right to negotiate with each top-quality graduating college allocated to one

American Conference Baltimore (4-6) at Seattle (5-5) -

Seahawks have a lot of speed and play well on Kingdome's fast Astroturf. Their quarterback, Jim Zorn, has gained respect of his

peers this season and also has great

statistics. With Bert Jones alive and

reasonably well, no mountain is too

tall for Colts. Betting line: Seattle

Denver (6-4) at Cleveland (5-5)

— Jets' fourth-quarter comeback

Browns cannot get enough out of their offense, although the quarter-back. Brian Sipe, has done well.

Bryant called the arrangement an "outright, undisguised refusal to deal," and said it "constitutes a deal," and said it "constitutes a group boycott in its classic and most pernicous form, a device inflate their profit margins may which has long been condemned." In the appellate court opinion, Judge Malcoim Wilkey wrote that the draft, as it was held in 1968, was "undeniably anti-competitive

(8-2) — Big offense against big defense. Oilers have the defense.

They had seven quarterback sacks against Cleveland. But their offense is the key to the game. It must con-trol the ball with Dan Pastorini

completing some sideline passes. Billy Johnson has undergone knee

surgery. Betting line: New England by 7.

Kansas City (2-8) at San Diego

(4-6) — Chargers give way to a good rushing attack, which the Chiefs have. But that's about all

they have. Chargers finally using Lydell Mitchell effectively. Betting

line: San Diego by 9½.

Miami (7-3) at Buffalo (4-6) —
Dolphins won the earlier game, 3124, and should do even better. They

are going for their 18th straight vic-

tory over the Bills, which, if achieved, will be an NFL record.

Oakland (6-4) at Cincinnati (1-9)

— Raiders have been giving up a
lot of rushing yards and Ken

"Brown is a super football player," Paterno said. "Whenever

he runs the ball in the open field,

boom, he's gone. If he catches it in the open field, boom, same way." Fusina has completed 57 percent

of his passes for 1,667 yards and

thrown for 11 touchdowns while

leading a balanced Penn State of-

fense that is averaging 402 yards per game — 205 rushing and 197

"Penn State has a strong team in every area," said Wolfpack coach Bo Rein, whose club is 6-2. "They

are a very solid team. They have

excellent overall speed. They are

playing like a team with a mission and, of course, you know what that

That mission for Penn State is a

prevent its purpose from being described, in subjective terms, as nefarious. "But this fact does not prevent its purpose from being described, in objective terms, as anti-competi-

tive, for suppressing competition is the . . . very essence of the restraint."

He said that the predictable ef-fect of the draft, as the evidence established and as Bryant found,
was to lower the salary levels of
the best college players.
"There can be no doubt that the
effect of the draft as it existed in

1968 was to 'suppress or even de-stroy competition' in the market for

players' services."
Shortly after the ruling by Bryant, the NFL owners signed a collective bargaining agreement with the NFL Players Association permitting a draft under a labor-law exemption to the anti-trust laws. However, the current draft has been reduced from 28 rounds to 12 rounds.

Wilkey wrote the 38-page opin-ion on behalf of Judges Carl McGowan and George MacKin-non. MacKinnon filed a 67-page opinion in which he disagreed with

parts of the majority's views.

Basically, MacKinnon said, he
did not believe the draft as it was conducted in 1968, was in violation of the anti-trust laws. And, even if it were, he said, Smith was not damaged by any anti-competitive

But Smith's attorney said, "The NFL is a cartel of millionaires who have combined to exercise their monopoly power to conscript players willy-nilly into their ranks. The owners have gotten away with murder for lo these many years."

berth most likely at stake. In league play, Texas is 4-0 and Houston 5-0. Randy McEachern will start at

quarterback for the Longhorns, but Jam Jones and Brad Beck, both freshmen, will be in the backfield.

Three of Texas' starting offensive

guards Joe Shearin and Mike Baab

Versus France in Toulouse

Russia Faces First Major Rugby Test

By Bob Donahue

PARIS, Nov. 10 (IHT) - Wales

plays New Zealand in Cardiff and France plays the Soviet Union in Toulouse tomorrow. Both matches will be rugby.

The Soviet Union? "It must be a political match," a British rugby figure speculated the other day, be-

cause Russians playing rugby could not be much of a sporting event. Another observer recalled North Korea's mysterious eruption into international soccer at the World Cup in 1966.

Mystery indeed. The Soviet Embassy here has been closed all week in celebration of the October Revolution. Despite repeated French requests, Moscow furnished no advance data on the players. The Russians will trot onto the field unheralded for their first match against a major rugby country.
The Soviet captain, Mikhail

Grajdan, appears to be a realist in his expectations. He said today in Toulouse that he is optimistic but holds no grand illusions about his team's chances tomorrow.

The French have picked their seven pro seasons.

best team, just to be safe. Flanker Jean-Pierre Rives is a surprise and surprised — captain in the absence of No. 8 Jean-Pierre Bastiat, who injured a knee in a club match last month. A newcomer, Michel Billac, is the country's classiest cen-

When France started playing international matches in 1906, the established powers won by lopsided scores. Now it is Russia's turn and this is where politics of a sort comes in.

The Russians had scarcely been admitted to the Continental championship of the French-led International Amateur Rugby Federation (FIRA) last season when they began throwing their weight around. At issue, among other things, were

Harris' Rushing Mark

PITTSBURGH, Nov. 10 (AP) -Franco Harris of the Pittsburgh Steelers has joined Jim Brown and O.J. Simpson as the only National Football League players to rush for more than 7,000 yards in their first

control of FIRA and rugby relations with South Africa. Moscow threatened recently to

call off tomorrow's match - which launches the Russians' first season in the top FIRA division — if France accepted a South Africa request for a match this fall. The French who toured Japan and Canada in September and October, say that they told South Africa their schedule was already full,

Soviet rugby will be put in its place tomorrow. Or so the French quietly hope. There was some concern when the Soviet military team tied the French military, 6-6, at Nevers last month. The French pulled themselves together and won the second match, 21-3, at Bour-

The mystery in Cardiff, where New Zealand has beaten Wales three times since the last Welsh victory in 1953, concerns the Welsh. Gareth Edwards, Gerald Davies, Phil Bennett and Terry Cobner have all resigned from international play since last season's Welsh sweep against England, France, Ire-land and Scotland.

Against an untried new Welsh team, New Zealand will be after the second of four test victories it seeks on an Oct. 18 - Dec. 16 tour of Britain and Ireland. The All Blacks won in Dublin last Saturday, 10-6,

NFL Weekend

By William N. Wallace NEW YORK, Nov. 10 (NYT) —
Previews of all games National
Football League games follow, with won-lost records in parentheses. National Conference

Giants (5-5) at Washington (7-3) — Jack Pardee isn't saying who the Redskin quarterback will be but the Giants expect Joe Theismann. Joe Pisarcik, currently the league's most maligned quarterback, will start for the Giants, whose need for a competent cornerback is equally desperate. This team is marching backward, and who can turn it

Move to Expand World Cup to 24 Teams Delayed

MADRID, Nov. 10 (UPI) — The International Football Federation (FIFA), divided over a motion to expand the 1982 World Cup from 16 to 24 teams, has delayed a deci-sion until April, members said today. The expansion issue was one of the most controversial facing FIFA during five days of committee meetings that opened last night.

Pablo Porta, president of the Royal Spanish Football Associa-tion, said that FIFA President Joao Havelange of Brazil had failed to win the support of Spain, the 1982 host country, and other Europeans for expansion. Porta said that the issue will be debated again at the next meeting of the FIFA and Spanish organizing committees at Zurich in April.

"The big problem is financial: with 24 teams we would have more expenses but no more spectators than with 16 teams," said Andres Ramirez, international adviser to he Spanish federation.

Seattle Slew Ready For His Final Start

NEW YORK, Nov. 10 (UPI) — Riva Ridge's 1973 track record of 1:47 will be Seattle Slew's object to-norrow when the 4-year-old colt nakes the last start of his career in he \$100,000-added Stuyvesant Stakes at Aqueduct. Siew was assigned 134 pounds

he most he has ever carried --- for he i 1-8th-mile race, and will be giving from 19 to 29 pounds to his even opponents.

Robinson Expected

To Coach for Orioles BALTIMORE, Nov. 10 (AP) rank Robinson probably will reum to Baltimore as a coach with he Orioles next season.

While Baltimore team officials ave declined to comment on the hat he will resume a role similar to he one he held early last year. he one he held early last year. lobinson, who led the Orioles to heir first American League pen-lant and World Series victory in 966, was first hired as a coach last vinter. He left in early May to panage the Rochester Red Wings.

around? Betting line: Washington by 7½ points.

Dallas (6-4) vs. Green Bay (7-3), at Milwaukee — Packers proved gazinst Eagles they, too, can play poorly. They are vulnerable to a pass rush, but Cowboys haven't had one lately. Champions lost last two to master quarterbacks. Tarktwo to master quarterbacks, Tarkenton and Griese, which Green Bay lacks. But field at Milwaukee is slow and, if wet, will curb Cowboy

speed. Betting line: Dallas by 7.
Atlanta (6-4) at New Orleans (5-5) — Saints have a far better offense; Falcons a far better defense. Defense is supposed to be more important but no one has stopped Saints' Archie Manning this season. He is NFC's No. 1 passer. Falcons have won four in a row, Saints three of last four. Bett-

ing line: New Orleans by 3.

Tampa Bay (4-6) at Detroit (3-7)

Lions beat Buccaneers on Sept.

9. "We've improved since," says
John McKay, Tampa coach. "We'll
win some more." Mike Rae replaced Doug Williams, out with a broken jaw, at quarterback Lions

— Jets' fourth-quarter comeback took much starch out of Broncos, who no longer make as many big defensive plays and who have a severe quarterback problem. Norris Weese is the only healthy passer, but Craig Morton is likely to start. Browns cannot get enough out of broken jaw, at quarterback Lions broken jaw, at quarterback. Lions have a rookie-of-the-year candidate in Al Baker, defensive end. But their offense won't go far against Bucs. Betting line: Detroit by 3.

St. Louis (2-8) at San Francisco (1-9) — Cardinals now have a lot going for them besides two-game winning streak. '49ers finally gave up on Steve DeBerg at quarterback and will start Scott Bull. O.J. Simpones in Paul Marie son's replacement is Paul Hofer, who has had only 21 carries this season. Betting line: St. Louis by 5.

Chicago (3-7) at Minnesota (6-4) Fran Tarkenton has a fat lip with 60 stitches in it but nothing is wrong with the rest of him. Vikings wrong with the rest of min. Vixings won last three because defense tightened up. Jim Marshall, 40 piled a record of 121-24-1, includyears old, and Carl Eller, 36, are starting again. Bears switched 1969) and 12-0 (1973) and an 11-1 starting again. Bears switched quarterbacks at halftime, Mike Phipps for Bob Avellini, in futile effort to end seven-game losing streak. They expect to go back to Avellini. Betting line: Minnesota

Interconference

Pittsburgh (9-1) at Los Angeles (8-2) — The figures favor the Rams slightly because of a stronger defense. Another edge is that three former Steeler coaches are now on Ray Malavasi's staff. But how do you stop Terry Bradshaw, Lynn Swann and John Stallworth? Latter two have caught 73 passes, 13 for touchdowns. Betting line: Los An-

Hollywood personalities and boxing figures, including Muhammad Ali, who were in town for Friday's bout between Larry Holmes and Alfredo Evangelista, were among guests at the \$500-a-plate dinner.

Irwin Cards 4 Over Par to Blow Lead in Melbourne MELBOURNE, Nov. 10 (AP) — day he made only 26, compared three others with long-distance

Hale Irwin followed a course record 64 with a dismal 4-over-par downhill putts all day. Still I'm happy enough. It is good at this sociation championship on the sociation championship of the sociation championship on the sociation championship of

Royal Melbourne layout.

Irwin had two three-putt greens, but not any one-putt greens all day.

4-shot lead to Graham Marsh.

Marsh fired a 5-under-par 66 — never won a top tournament in his Irwin had two three-putt greens, going out in 30 — to finish at the own country but a handful over-halfway mark with a 2-stroke lead seas, had an extraordinary putting halfway mark with a 2-stroke lead over Irwin.

Irwin blamed his dramatic loss of form on his putting. On the first on his putting. On the first on 30 feet, and birdied

seas, had an extraordinary putting sequence on the first nine. He eafive behind Marsh and 3 strokes behind Irwin, included Loren Roberts and John Lister Zealand.

By Shirley Povich

"The pin placements and the wind made scoring very tricky. I didn't play the memorable shots Hale hit on the first day, but I guess I got off to a really good start," Marsh

Because Dempsey was fighting the rule by his actions in the Firpo after a long layoff, the cry for a refight when he stood over the fallen

saw the fight, some from such distances in the stadium they claimed Tunney was to get an almost tax-free check for \$999,000.

Luck Made Difference

Eight of the 10 rounds were won

match was instant. Richard put it Argentinian in readiness to swat in Soldier Field, and pegged the price at an unheard of \$40 for ringside. Dempsey trained at a race sey didn't remember the rule until track. Tunney hied himself to a Barry almost physically directed

Chicago suburb and indicated ut didn't want fight writers around by giving out false workout times, working in as much privacy as he working in as much privacy as he working in as much privacy as he would not be a second fire to the count against Tunney had reached five, and now reverted to one with Tunney getting the benefit of it. I was positive not have been up at a proper count of 10, but those precious seconds were heaven-sent for him, and at they were in Evanston. They paid a were heaven-sent for him, and at then-record gate of \$4,658,600.

Retreats Pay Off

The retreats he had practiced in training now paid off for Tunney, who backed out of danger for the rest of the round. At the round's end, it was Dempsey who was spent from his exertions, and he was reduced to beckoning in vain for the canny Tunney to "come in and

Tunney ran away to fight another round and another and another and at the end of 10 was the clear winner over an exhausted Demp-

with the disputed count graciously, but sometimes he would say, "Everybody forgets that I floored Dempsey with my first punch in round eight."

down had been spelled out for both fighters by referee Dave Barry in the pre-fight instructions. Ironically, Dempsey himself had inspired Richard promotion, with Richard

learning that Tunney, without : Dempsey, was not box-office. Richard lost \$132,000 on the fight.

Following that fight Tunney married Polly Lauder in Rome and retired to a new world of dinner jackets and, later, corporate board meetings. He had refused a \$100,000 endorsement from a cigarette company and wrote a "don't smoke" article for Reader's Digest. On one trip to Europe, he told

assembled news photographers, "If my picture is taken again, it will be without my consent. In England, if a person announces he is retiring to private life, they respect him." In 1945, Tunney wrote the sege-ment on boxing for the Encyclopedia Britannica but otherwise retired to his Connecticut country

home in what appeared to be a

Gene Tunney . . . in 1927 photo

American hero. He was the young, handsome, stalwart fighting Marine of World War I, square-jawed and fearless. He reached for the heavyweight championship of the world and won it, from Jack Dempsey. He also beat the big odds that said this New York Irish kid, this high school dropout at 15, would never master Shakespeare and be asked to lecture at Yale. He made \$1 million in one fight, and poor no more, married the heiress of his dreams, Andrew Carnegie's niece. He was all of these things, but complete admiration escaped Tunney. The flaws were two. He was the man who beat a popular idol when he twice destroyed Dempsey. And there was a personality defect.

Adding up to Uppity

In his pursuit of culture, Tunney took a walking tour of Europe, cul-tivated Yale professor William Lyons Phelps, and went swimming with George Bernard Shaw. To the genius fight fan, this added up to

These are some of the recollections prompted by Tunney's death up knowledge, Tunney set his this week at age 80. I was at ring sights on Dempsey's title after side that Sept. 19, 51 years ago in Soldier Field, Chicago, when the battle of the long count saved Tunney's title and gave America one of its most enduring debates. There also is a vivid memory of For all the luster of his won-lost Dempsey fans screaming. "Come record. Tunney was a "made"

on, Jack," after Dempsey floored fighter. He lacked the natural Tunney in round seven, more cheers for Dempsey in that one WASHINGTON, Nov. 10 (WP) - Gene Tunney should have been round than for Tunney in the eight the living portrait of the certified he won in the 10-round fight. In Chicago there was a carry-

over resentment of Tunney among many Americans. When he outpointed Dempsey the year before in Philadelphia, it was the first time that the hevyweight title had been

won by a decision.

There was a wide, if mistaken belief, that this wasn't right. The heavyweight title should be won by knockout. What happened to macho? As an on-points heavyweight champ, Tunney was diminished in the minds of many.

This, it must be remembered, was the mid-20s, the so-called gold-

when he twice destroyed Dempsey.
And there was a personality defect.
Unlike hi-ya-guy Dempsey, he lacked the common touch, choosing to hang out with scholars.

en age of sports, and Dempsey-Tunney was part of it. This was the era of Babe Ruth and Bobby Jones and Bill Tilden and Red Grange and Helen Wills. Only a week before the long count in Chicago. Babe Ruth hit his 60th home run in Yankee Stadium against the Senators' Tom Zachary. Sport's idols were fewer but they were giants. The irreverent West-

brook Pegler called it the Era of Wonderful Nonsense, In the same methodical manner that he hung out in libraries to soak

For all the luster of his won-lost

moves of a Dempsey and others. He was his own creation, a standup counter-puncher who made a science of his style, took no fear into the ring with him, and in his training camps practiced at great length the backward moves that ultimately helped him keep his title in round seven at Chicago. There was a discomforting irony

for Tunney with both his fights with Dempsey. Here he was, the World War I marine who had seen combat and was decorated. Dempsey, in contrast, was under slacker charges in 1918 when he was caught posing as a shipyard work-er, but in patent-leather shoes. Yet, less than a decade later, it was Dempsey the people's choice and Tunney the hooted one.

An Art From Is Born

The now-popular art of psyching an opponent may first have been practiced by Tunney. For his first Dempsey fight, he brazenly flew by small plane from his Stroudsburg. Pa., training camp to Philadelphia in a driving rain, a bravura stunt in 1926. If Dempsey wasn't wholly impressed with Tunney's gutsiness, promoter Tex Richard was. With a \$2 million stake in the promotion riding in Tunney's plane, Richard was reported to have gotten air sick despite never having left the

sights on Dempsey's title after turning pro following the war. He was ring-wise when he met Dempsey, having fought 77 bouts and lossing only to Harry Greb, whome he twice licked in return bouts.

For all the luster of his worn-lost

It was the first fight broadcast by a commercial broadcaster.

by Tunney, yet ultimately he won on luck. In the seventh round when Dempsey suddenly came to life with a flurry of the same murerous punches that floored Jess Willard and Luis Firpo, Tunney was caught off guard and clobbered. The first two Dempsey punches on either side of the head caused Tunney to sag. The descending Tunney then was clubbed on top of the head by a dozen Dempsey blows and was on his pants, hurt and groggy with

one arm groping for the lower strand of the ropes.

Dempsey, who should have known better, hovered over him. known better, hovered over min.

The instructions to retire to the farthest corner in case of a knockdown had been spelled out for both down had been spelled out for both plodding Tom Heeney in New York and knocking him out in This was another Tex

fight.

In later years, Junney could live

Discount Travelers Are Fare Game

lines are trying to make it up to people who have to pay more for flying in coach than those who fly on special thrift rates.

A barrage of newspaper, magainforming us that the airlines really "revere" their "full-fare" passen-

gers, and are making sure they, get treated better than those on discount fares.

For one thing, the people who pay full coach fare will be seated in the middle of the plane just be-hind those in first Buchwald class. The discount passengers will be placed in

the rear of the craft where no one can see them. own check-in lines and presumably first crack at the plane's free maga-

The reason for the sudden decision to advertise the advantages of full fare, as opposed to discount, is that the airlines have had a backlash from businessmen who travel all the time and feel they're being taken for a ride. No one likes to sit next to a person who has paid 30 to 40 percent less to go to the same place and arrive at the same time.

I believe the airlines will have to do more than just seat the discount people in the back of the plane to placate the people who pay full

Clemenceau Museum Welcomes Veterans

PARIS, Nov. 10 (IHT) - The Clemenceau Museum, on tomorrow's 60th anniversary of the World War I armistice, will welcome veterans paying tribute to Georges Clemenceau, the French prime minister during the last year

of the war. The apartment at 8 Rue Franklin where Clemenceau died in 1929 is unchanged since the creation of a museum there a year later. Clemenceau's glasses and pens are still on his desk, and at the foot of his bed are his bathrobe, his famous furlined coat, dented hat, spats and

HERALD

TRIBUNE

WASHINGTON — The air-

I foresee in the not too distant future that, after the coach passenger has been seated in the middle of the plane, the discount passengers will be loaded on board in irons. They will be driven to the back of the aircraft by a gigantic black-bearded man who is stripped to the waist and cracking a long

Once in the back, they will be shoved down on wooden slats and chained to the bulkhead. The man with the beard will be their steward. He will walk up and down the thrift-section aisle shouting, "All right, you scurvy. There will be absolute silence in this section of the plane Anyone who opens his mouth will get a taste of the whip on his worthless tourist back.

"Now this is the drill. Because we are flying over water part of the time, pay attention to these safety precautions. In case of the unlikely event of an emergency, a saw will be lowered from above you so that you can file off your leg irons and the chains on your wrists. There are emergency exits in the front of the plane. They may not be used until

you pay a surcharge of \$40.
"Once we are in the air we will be serving a delicious meal to passengers up front, consisting of vichyssoise, roast duckling with orange sauce, wild rice with raisins, and a Chateau Mouton Rothschild 1969. As for you riffraff back here, we will pass around this wooden bucket of watery gruel, which the trusty will put in your slop bowls.

"Each passenger will be offered a choice of coffee, tea or milk. If he doesn't guess the right one, he will be hung by his thumbs from the luggage rack. One more thing, if any of you are planning to escape into coach class - forget it.

This 747 has a snake-filled moat separating the cabins. "All right, you miserable wretches. We're ready for takeoff.

Are there any questions?" "Sir, what is the movie playing

CRACKKKKKK!!!!!! "Take that you penny-pinching cur. No one is entitled to a movie in discount class. Where the hell do you think you are - on some kind of Mary Blume_

A Contemporary Look at the 'Great' War

DARIS, Nov. 10 (IHT) -I Fewer people recall the precise date of V-E or V-J day than Armistice day: Nov. 11. Sixty years later, the Great War persists curiously in the memory of those who never knew it. The poet Vernon Scannell, who fought in World War II, wrote:

Whenever war is spoken of The war that was called Great invades the mind

This weekend there will be the unusual commemorative ceremonies: wreaths and masses, a meeting at the American Legion in Paris to remember the 40 and 8 wagons (which brought doughboys to the front in boxcars that carried eight horses or 40 men), and pilgrimages by dwindling groups of "Old Contemptibles" to some of the 2,500 military cemeteries in France and Belgium where British troops are bur-

Happy War?

Even in the United States, comparatively untouched, the cheerful "Over There" attitude is changing, and it is doubtful that anyone would now say, as an idi-otic politician once did, that World War I was the United States' only happy war. The change has many causes: new questioning of the U.S.'s past; such TV hits as "Upstairs,

Downstairs;" Paul Fussell's remarkable "The Great War and Modern Memory," which won a National Book Award in 1976; and a feeling among the Vietnam generation that government deceit and criminal waste of life

were similar in both wars.

As Fussell points out, the Great War influenced U.S. traditions and even vocabularies, adding such words and phrases as crummy, sector, trenchcoat (as well as trenchfoot and trenchmouth) and over the top. 'American football has its twoplatoon system, and medical science aspires to breakthroughs." Fussell writes. The quality of poeary and prose produced by the war was high.

In addition to the lasting works, there was during the Great War a curious sub-literature exemplified by a newspaper British troops published in the heat of battle in the dread Ypres salient and called "The Wipers Times." (Mispronunciations of local names were traditional: not only Wipers for Ypres, but Eat Apple for Etaples, Hazy Brook for Hazebrouck and, for the impossible Godewaersvelde, Gertie Wears Velver.)

The first issue of "The Wipers Times was produced in a ratinfested cellar in Ypres in February, 1916, and the last in December, 1918. It is now available in a facsimile edition edited by Patrick Beaver and published

cept for its last issue, the paper was never printed out of the front area and at one time the press was within 700 yards of the

Artillery Fire

The Ypres salient was about nine miles wide, projected four miles into the German line and drew terrible artillery fire. On the north side of the salient was Passchendaele, where 370,000 British dead and wounded fell, some of them drowned in mud. When maps of the salient were drawn for newspapers back home. Fussell says, it was made to "appear a harmless little protuberance, not at all a vast enclosure of some 18 square miles in which the British were exposed to shelling from three — and sometimes four — sides."

Capt. F.J. Roberts of the 12th Battalion of Sherwood Foresters founded and edited The Wipers Times," and did most of its writing. It was a humorous weekly, with a humor more forbearing than savage and with never a hint of raw barracks wit. The hilarity was more often hysteri-cal than natural," Roberts later wrote, but the tone today seems hearty and facetions, with the horrors of shells, gas. flamethrowers and stench concealed in cheerful irony.

Changed Name

"The Wipers Times" changed its name as the troops moved becoming "The 'New Church' Times," "The B.E.F. Times," and "The 'Better Times.' " By its last issues it was better produced but had run out of steam: It was needed no more.

The paper began when Roberts found what was left of an old printing works at Ypres.
"There were parts of the building remaining," he later wrote.
"The type was all over the countryside." At the time, the troops were living in the cellars and dugouts of Ypres by day and fighting by night in the liq-

MOVING

WANT TO GET A KICK

nid mud of Hooge, in which floated bodies, bits of bodies and a repellent slime from explosive gas - Wilfred Owen's "sad weak with sweats of dearth, Gray, cratered like the moon with hollow woe." At day-break the men returned from this hell to Ypres, and Roberts, who was not a newspaperman, worked on his newspaper. One does not know when, or whether,

"Any little shortcoming in production must be excused on the grounds of inexperience and the fact that pieces of metal of various sizes had punctured our press," Roberts wrote laconicalin his first editorial. Should the enemy further disturb his journalism, he warned, "we shall consider it an unfriendly act and

take steps accordingly."

He describes the Battle of Viny Ridge as "A Mammoth International Sports Meeting," advertises "A Stirring Drama Entitled Mined (A Most Uplifting Experience)," and takes under-standable pokes at Woodrow Wilson. Only toward the end was death mentioned, and memorial notices printed.

The paper is filled with literary allusions — Pope, Grey, Browning — and sharp parodies of all-knowing war correspondents. There are letters, like those in the London Times, arguing with savage politeness about who really heard the first cuckoo.

One of the parodies of a Daily Mail correspondent refers to an event all troops would have been familiar with: the dotty heroism of Capt. P. Nevill, who led an attack by kicking a football to-wards the German lines - and was killed at once. "On they came kicking footballs and so completely puzzled the Potsdammers," goes the parody. It was best to treat such incidents lightly. In fact it was necessary, as Wilfed Owen wrote:

Merry it was to laugh there -Where death becomes absurd and life absurder.

For power was on us as we slashed bones bare Not to feel sickness or remorse of

PEOPLE: Harold Stassen to Run For Presidency in '80

Emboldened by Republican vic-tories in his home state of Minneso-ta and elsewhere in Tuesday's election, Harold Stassen, the never-saydie presidential candidate, again threw his hat in the ring. The for-

mer governor an-nounced in St. Paul that he would seek the Republican nomi-nation in the 1980 primaries on a blatform "to clean out the corruption in Washington and overcome inflation

with full employment." The 70-year-old Stassen who was a leading contender for the Republican nomination in 1948, has since entered primaries seven times. He returned to Minnesota early this year to run for the U.S. Senate, but was defeated in the primary by Rudy Boschwitz, who went on to win in Tuesday's election.

Former president Richard Nixon will be in Paris for a Nov. 28 television appearance. The program, on Antenne Deux, will consist of a film retracing Nixon's career, followed by viewers' questions relayed by a moderator. The announcement said that Nixon would be willing to answer questions on his life, his career and the circumstances of his resignation. He will not meet any journalists or give any interviews during the visit. The net-work said that he will arrive in Paris Nov. 25 and leave Nov. 29 for London.

Actress Vanessa Redgrave, her actor brother Corin and four other members of the ultra-left Workers Revolutionary Party lost a libel ac-tion against The Observer, a London Sunday newspaper, and its for-mer editor David Astor. The six complained that an Observer article, published in September, 1975, made them out to be violent and unlawful. The article concerned what was said to have happened to irene Gorst, a National Theater actress, at the party's political school in Derbyshire. The plaintiffs objected in particular to a suggestion that party members had hinted that there were arms caches in the school grounds, and that four of the six had held Miss Gorst at the school, interrogated her for six

hours, searched her handbag and so bullied her that she was reduced to tears. Judge Sir Patrick O'Comore told the six they must pay The Observer's and Astor's trial costs. The bill was unofficially estimated at \$120,000 to \$140,000 for the 13. day hearing.

The Class of 1953, taught 2: years ago by Richard Auerbach at the Eggert Road Elementary School in Buffalo, N.Y., has cons up with a batting average any seen would envy. Auerbach had asked would envy. Atternach had asked his fifth-graders to write essay predicting conditions in 1978. He has opened the "time capsule," and among the prophecies. I think the world will have very high prices in 1978. Trains will not be used very much. Some men may even walk on the moon." Michael Lappin envisioned the Concorder predicting, "supersonic airplanes that will fly across the Atlantic in 3 hours." There was one goof.

Frances, who didn't sign a last published predicted "warm predicted "states". name, predicted warmer winters

Lee Arme Schreiber, 33, former and editor-in-chief of Womens Sports and magazine, has been named sports at the chief of the New York Times, and Miss Schreiber will head a staff of nists, with responsibility for the mists, with responsibility for the mist daily sports pages, the enlarged A Sunday sports section and Sports Monday. Miss Schreiber in joined the Times last February. In 1974 the heaves a writer for Times in 1974 she became a writer for Time of magazine and covered the 1976 Chympic games. She attended high the school in Chicago, Rice University in Houston and holds a master store. degree from Stanford University From 1968 to 1974 she attended Harvard as Harvard Prize Fellow teaching and pursuing her doctoral studies in the English department.

Nina Simone, the jazz singer faces a sentence of up to a year in pent prison and a fine of \$10,000 for filbs failure to file a federal income tax return in 1971. The 45-year-old singer pleaded guilty to the charge in federal court, and Judge Con-stance Baker Motley set Dec. 15 for sentencing. The prosecutor, Allan Naftalis, told Judge Motley that Miss Simone had an adjusted gross income of \$36,288 in 1971, the year she admitted filing no return. -SAMUEL JUSTICE
